Teacher and Cover Plan

I can show one thing that went well and a real clue.

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for linking a strength to a real clue against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

You may point to the real work, draw a clue, or tell an adult what to record. A quiet review has the same value. You may pass.

Keep the work on the desk. Ask before you move shared work. Keep any short cue test quiet. No solo is needed.

Practice evidence only. No completion decision, encounter, public event or completed response is pre-filled.

Invite a response. Allow thinking time. The pupil may pass.

Stage timings

Stage	Minutes
Arrival including opening	4
Starter	3
I do	10
We do shared investigation	10
We do decision checkpoint	3
You do	5
Review and improve	3
Exit ticket	2
Total	40

I do staff script

Ask the question

Watch the model: use one real clue to check what went well.

Make a short demonstration with a square stop cue. The adult points through four silent beats and stops at the square. Label this demonstration as a model only. It is not a record of any pupil performance. Keep the same small example in view while explaining the review process.

Find the evidence

Look at the work or a note. Find one thing you saw or heard.

Model an authentic observation from the demonstration: the pointing stopped at the square. Contrast this with the comment that it felt good. Explain that a feeling is valid and can sit beside an observable detail. Invite pupils to locate the moment, using any response mode.

I do staff script continued

Explain the link

Link the clue to one good part. A clear stop is one part we can check.

Show how the observation supports a limited strength: the stop cue was clear in this demonstration. Point from the real cue to the observed stop. Do not claim that the whole piece was perfect. Repeat with a cue sketch or another accessible piece of actual work, then fade one prompt.

Check what we know

Check the same moment. A good review says what helped, not just how it felt.

Check whether a comment and a note refer to the same short moment. Model asking what was seen or heard, rather than guessing. Pupils choose which statement they could check. Keep their own review blank until they use their actual work or an honestly labelled fresh practice.

We do staff script

Find a real cue sketch, art piece or note from the group piece.

Point to one part that went well. Use a quiet role if that was your part.

Say or show what was seen or heard at that moment.

Link the clue to the strength. Check that both refer to the same part.

Compare a clear note with a note that just says it was good.

In your book, keep one real clue and one short strength note.

Use an actual available record with permission. If there is none, create a short silent cue demonstration and label it as fresh practice. Never invent evidence of an earlier event.

Invite the group to identify the specific moment and what was observed. Include silent cue work and the artwork role. Accept a pass. Repeat the link between a clue and a strength with less adult pointing.

Shared practice guidance

Compare a vague positive comment with a specific observation about the same moment. Keep the feeling while adding a detail. Use a second actual example to check whether pupils can make the link without a model.

Build one shared strength note from the actual example. Let pupils direct its wording or symbols. Check the note against the source once more, then use the checkpoint before the short personal record task.

We do decision checkpoint

Which note shows what went well?

A · We stopped at the square cue.

B · It was good.

A names one thing we can check. Use it only if it matches the real work.

Release the short review task when pupils choose A and point to a matching real moment. If they choose B alone, keep their positive comment and model adding one visible or audible detail. Repeat with another actual example, then use the parallel check.

A note says the start was clear. Which clue would help you check that?

Use an actual start cue, sketch or observation from that start. A stop cue alone does not show how the start went.

Review and improve

Show the clue for your strength.

Use one next step to make the note clear.

Check the note against the real work.

Optional: show or tell an adult what you changed after feedback. You may use your usual response mode or pass.

Mark R only after the pupil has responded to the next step and an adult has received and reflected the response.

Adult ticks the improved work.

Pupil voice

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Next lesson · Choose and check one next step

Staff print card

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for linking a strength to a real clue against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

VF · WS · I · NS + … · E · R · // · ?

Soft instrumental music for transitions if the class plan says so. Sound off by default.

P17 planning and evaluation

For absence or access, use the first worked card in I do or We do. If behind, keep one model cue, the checkpoint and one book response.

Cognition and learning

Keep a model and a two-choice start in view. Fade one cue when the pupil shows the next step.

Communication and interaction

Allow thinking time. Use a visual choice and a brief stem. Accept all listed modes or a pass.

SEMH

Offer a calm start and a private response. Keep quiet sharing equal in value.

Sensory and physical

You may point to the real work, draw a clue, or tell an adult what to record. A quiet review has the same value. You may pass.

EAL

Plan in any language. Show the term with a picture and action.

Staff evaluation

Record one actual response, a useful adaptation and the next teaching action.

P18 individual target opportunities

Use the current target in private. Record the actual response and support.

Adult deployment and responsive feedback

Point to the place or instruction.

Ask one short question.

Rephrase the instruction.

Give a scaffold or a choice.

Model the first step only, then return the task.

First lesson back

Read once only. Welcome pupils and check the last work in private. Offer a quiet route back in.

Return to learning

Offer the first model cue, then rejoin the chosen route.

Topic guidance

Use actual work or an authentic observation from the group piece or its quiet role. Keep model examples separate from pupil records. Do not infer a public event, attendance or success. If no record exists, offer a short quiet cue test and label it as fresh practice.

Practice evidence only. No completion decision, encounter, public event or completed response is pre-filled.
