Teacher and Cover Plan

I can refine my arts account using a genuine reply and verified links.

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for sharing arts work and checking the real reply against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

You may point to real work, draw a clue, or tell an adult what to record. A quiet share has the same value. You may pass.

Keep the work on the desk. Ask before you move shared work. Keep sound low. No solo is needed.

Practice evidence only. No completion decision, encounter, public event or completed response is pre-filled.

Invite a response. Allow thinking time. The pupil may pass.

Stage timings

Stage	Minutes
Arrival including opening	4
Starter	3
I do	5
We do shared investigation	5
We do decision checkpoint	2
You do	15
Review and improve	4
Exit ticket	2
Total	40

I do

Ask the question

Watch the model: share a specific achievement using the verified record.

Return to the labelled model and its checked locator from Lesson 1. Demonstrate a short account of an enjoyable choice and a learnt skill, pointing to the actual work. The agreed listener may be an adult. Quiet, private and directed sharing have equal value. No learner performs alone or is put on show.

Find the evidence

Ask what the listener understood and preserve the genuine response.

Ask what the listener understood and wait for an actual reply. Model recording that reply faithfully using the speaker's own words, signs or confirmed choices. Contrast a genuine reply with an assumed positive comment. If a learner passes or no response is observed, keep it open.

Model script continued

Explain the link

Use that response to refine one detail, then share that part again.

Use a real request for clarification to improve one detail of the model account. Point to the relevant feature and try the account again. A reasoned decision to keep an already clear part is valid. Invite feedback without cold calling. R is recorded only after the learner has responded and an adult has received and reflected that response.

Check what we know

Verify the locators, count actual files and retain explicit open actions.

Open each actual locator and check the matching item. Count the actual submitted files or clips, up to ten, without inventing totals or treating an incomplete set as complete. Use Part D preparation only for BUILD: a real practice reply belongs at D page 2; D page 3 stays pending unless the actual event occurred. Leave missing work and unobserved replies as gaps.

We do

Bring back a checked item from Lesson 1.

Give a short share and point to its detail.

Ask what the agreed listener understood. Keep the real reply.

Use one next step, then check the link or keep a gap.

Use an actual Lesson 1 record or a clearly labelled model. Agree the listener and response mode before sharing. A private share, directing an adult or a quiet gap-check task has equal value. Never supply a pupil's account or listener response in advance.

Model faithful recording of the listener's actual reply. Ask the group to choose a useful detail to clarify. Repeat only that part, retaining the real work and the learner's own words. Keep the optional participation loop within the later feedback activity.

Check the linked page together and identify any open action. Use the checkpoint before independent work. If a pupil cannot separate an actual reply from an assumed one, model the distinction and use the parallel check. Keep the final file count actual and unfilled until checked.

Decision checkpoint

Which reply can we keep in the log?

A · What the listener really said, signed or showed.

B · What we hope the listener would say.

A is a real reply. Keep B as a thought, not a reply that happened.

Release the sharing and filing task when the pupil distinguishes an actual response from an assumed one and can point to the real work. If not, model listening and faithfully recording one reply. Check again with the parallel question. Keep an unobserved reply open.

No one has replied yet. Can we fill in a good reply?

No. Leave a gap and agree how to ask a listener. A pass is valid.

You do

Start in your book.

You may point to real work, draw a clue, or tell an adult what to record. A quiet share has the same value. You may pass.

Share one part with a cue

Point, speak, sign, draw, write or choose. You may pass.

Use your Lesson 1 work and page note.

Show what you liked and learnt to an agreed listener.

Ask what they understood. Keep the real reply or a gap.

Try one part again with help if needed.

In your book, keep the reply and check the page with an adult.

I learnt ___. The listener showed ___.

Refine and file a checked account

Point, speak, sign, draw, write or choose. You may pass.

Use the actual Lesson 1 record to explain a learnt skill or choice.

Share privately or with an agreed listener and retain the genuine reply.

Use the response to refine one detail, then share that part again.

Verify each locator against its actual item. Count actual submitted files.

Keep the response, checked links and one action for each gap in your log.

The reply led me to clarify ___. The verified record shows ___.

Compare and justify a refinement

Point, speak, sign, draw, write or choose. You may pass.

Explain two choices using actual records and checked locators.

Compare what the listener understood with what you intended to explain.

Refine a specific detail and justify the change or a decision to retain it.

Share the refined account and compare the genuine responses.

Identify the limits of the records and prioritise one action for any gap.

Compare both accounts. Explain why your refinement improves the link to real work.

The refinement helps because ___. The remaining uncertainty is ___.

Choose how to share and check

Point, speak, sign, draw, write or choose. You may pass.

Show your Lesson 1 work in private or direct an adult.

Point, draw or show what you liked and learnt.

Ask for a reply in your usual way, or pass.

Use one next step to make a part clear.

Keep the real reply or a gap in your book. Check the page.

I shared ___. My next action is ___.

Review and improve

Show your first account and the real reply.

Use one next step to make a part clear.

Try that part again or explain what you kept.

Optional: show or tell an adult what you changed after feedback. You may use your usual response mode or pass.

Mark R only after the pupil has responded to the next step and an adult has received and reflected the response.

Adult ticks the improved work.

Pupil voice

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Next lesson · Choose my next arts aim

Staff print card

At check-out, record E for today's lesson against each pupil's target on the evidence app.

At check-out, record E for sharing arts work and checking the real reply against the pupil's target.

Regulation: check the colour-and-word card at Arrival and after You do.

VF · WS · I · NS + … · E · R · // · ?

Soft instrumental music for transitions if the class plan says so. Sound off by default.

P17 planning and evaluation

For absence or access, use the first worked card in I do or We do. If behind, keep one model cue, the checkpoint and one book response.

Cognition and learning

Keep a model and a two-choice start in view. Fade one cue when the pupil shows the next step.

Communication and interaction

Allow thinking time. Use a visual choice and a brief stem. Accept all listed modes or a pass.

SEMH

Offer a calm start and a private response. Keep quiet sharing equal in value.

Sensory and physical

You may point to real work, draw a clue, or tell an adult what to record. A quiet share has the same value. You may pass.

EAL

Plan in any language. Show the term with a picture and action.

Staff evaluation

Record one actual response, a useful adaptation and the next teaching action.

P18 individual target opportunities

Use the current target in private. Record the actual response and support.

Adult deployment and responsive feedback

Point to the place or instruction.

Ask one short question.

Rephrase the instruction.

Give a scaffold or a choice.

Model the first step only, then return the task.

First lesson back

Read once only. Welcome pupils and check the last work in private. Offer a quiet route back in.

Return to learning

Offer the first model cue, then rejoin the chosen route.

Topic guidance

Use actual artwork, practice notes and the Week 6 look-back record. Keep the learner's own words and distinguish model examples from pupil records. Use A · Take part, B · Find out, C · Make and D · Share as filing prompts for the award. Keep A and C work distinct. For BUILD, this is Part D preparation: retain the actual practice reply at D page 2. D page 3 stays pending unless the actual event occurred. For GROW, check the real items and their locators across the arts log. Open each locator before treating it as verified. Count actual submitted files and clips, up to ten; do not invent a count or force a completed set. Leave missing records and unobserved replies as gaps with one follow-up action. No public event or completion decision is supplied. The owner confirms any later share.

Practice evidence only. No completion decision, encounter, public event or completed response is pre-filled.
