Hinge and task checks

Which is the clearest example of a skill?

The second answer names the skill and what the person did.

Correct sequence: Name the task. / Name the skill. / Give an example. / Choose a next skill.

I helped lay out empty pots for a garden task. I followed the picture steps and put the pots in the right place. An adult read the steps. Following steps is my skill. It can also help me set out cups in a kitchen.

I can name a skill and a workplace.

I can link a skill to something I did.

I can explain how a skill helps in more than one place.

Misconceptions

Only paid work counts as skill practice. Correction: A completed class or home task may show a skill. State the task and the help used.

A skill belongs to only one job. Correction: Safety, teamwork and following steps can transfer.

A class result proves each pupil did the task. Correction: Record what each pupil did and any adult help.

Accept a different defensible example if the pupil links it to the task. Record a pass as a pass; never guess an answer or outcome.
