Knowledge organiser (BASE) — One photo, one comment, one page

Pathway: BASE · Week 5 Part 1 · Big question: How do we build a neat studio log page with a photo and a comment?

Core studio focus

Family: Identity and studio log

Big question: How do we build a neat studio log page with a photo and a comment?

- Pick one photo or sample of your artwork.
- Glue it straight onto your studio log page.
- Add one clear label. One comment saying what went well.

Essential vocabulary

- log: A folder or book that keeps your art journey in order.
- mount: To glue a picture neatly onto a backing frame.
- comment: A short true note about what you made and liked.
- border: The neat margin around the edge of a mounted photo.
- date: The week number that shows when you made the work.

Three-step studio method

Step 1: Dry-fit the photo: I place my artwork photo inside the guide box. First using glue to check it sits straight.

Step 2: Glue the back edges: I flip the photo onto a scrap mat, run the glue stick round the four edges,. Press it flat.

Step 3: Write one label and one comment: I draw one straight line to my dark shading. Write: 'I used soft pencil for bold tone.'
