TA studio brief — One photo, one comment, one page

Pathway: BASE · Week 5 Part 1 · Big question: How do we build a neat studio log page with a photo and a comment?

TA practical setup & focus

Have printed photos of each pupil's Week 2 and Week 4 work ready in named wallets plus scrap newspaper mats for gluing.

Studio kit: Printed photos of pupil work (or mini work samples), A4 studio log sheets, glue sticks, backing card frames, black pens

Key words to prompt

• log: A folder or book that keeps your art journey in order.

• mount: To glue a picture neatly onto a backing frame.

• comment: A short true note about what you made and liked.

• border: The neat margin around the edge of a mounted photo.

• date: The week number that shows when you made the work.

Supported route steps

1. Dry-fit your artwork photo inside the printed frame box on your sheet.

2. Glue the back edges on a scrap mat. Press the photo down straight.

3. Draw a straight line from the label 'My best mark' to your best part.

4. Fill in the two gaps in the comment strip: 'I used ___. I like the ___.'

Check: Photo mounted straight with one pointer line. Done comment strip.

Review & exit support

Exit question: Why do we place a photo on the page. First putting glue on the back?

Staff note: Staff preparation only: review a short demonstration of dry-fitting, corner-to-corner gluing, and pointer-line labelling.
