Teacher and cover plan — One photo, one comment, one page

Pathway: BASE · Week 5 Part 1 · Big question: How do we build a neat studio log page with a photo and a comment?

Learning goals and studio kit

• Pick one photo or sample of your artwork.

• Glue it straight onto your studio log page.

• Add one clear label. One comment saying what went well.

Studio kit: Printed photos of pupil work (or mini work samples), A4 studio log sheets, glue sticks, backing card frames, black pens

Arrival and starter

Arrival: Look at the two log pages on screen. Why does Page B look so much neater than Page A?

Starter question: Where should you put the glue stick marks when mounting a photo?

Teacher model (I do)

Step 1: Dry-fit the photo: I place my artwork photo inside the guide box. First using glue to check it sits straight.

Step 2: Glue the back edges: I flip the photo onto a scrap mat, run the glue stick round the four edges,. Press it flat.

Step 3: Write one label and one comment: I draw one straight line to my dark shading. Write: 'I used soft pencil for bold tone.'

Practice routes (Supported / Independent / Aspire)

Supported: Photo mounted straight with one pointer line. Done comment strip.

Independent: Double-mounted photo, two technical labels,. A two-short line comment.

Aspire: Two mounted pieces with side by side labels. Progress reflection.

TA and cover notes

TA focus: Have printed photos of each pupil's Week 2 and Week 4 work ready in named wallets plus scrap newspaper mats for gluing.

Staff prep: Staff preparation only: review a short demonstration of dry-fitting, corner-to-corner gluing, and pointer-line labelling.
