Tier pack: Aspire route — Make the identity piece: pattern and portrait

Pathway: TRACK · Week 4 Part 1 · Big question: How can we combine a bold repeating background pattern with a high-contrast central identity subject?

Aspire route studio steps

Step 1: Map a complex composition integrating a central portrait/emblem with an interlocking geometric ground.

Step 2: Use tonal counterchange (dark motif against light ground shifting to light motif against dark ground).

Step 3: Combine three studio processes (collage base, pastel resist wash, and fine tonal hatching).

Step 4: Annotate the reverse with a technical summary of your media sequence.

Success check

Resolved three-process identity artwork using tonal counterchange and reverse annotation.

Make-it studio planner

Confirm your central subject, background rhythm, and figure-ground separator.

Options: Bold symbolic crest, Stylised profile portrait, Interlocking personal emblem, Split-tone identity mask

Review checklist

[ ] Step back two paces from your easel or desk to check that the central subject pops out from the patterned background.

[ ] Check that any wet wash areas are flat and drying cleanly.

[ ] Place your artwork on the drying rack with your Week 3 plan clipped alongside.
