Tier pack: Independent route — Plan and rehearse a studio skill demonstration

Pathway: TRACK · Week 6 Part 2 · Big question: How do we break a practical relief or surface technique into three teachable steps for peers?

Independent route studio steps

Step 1: Select one core workshop skill from Weeks 1-4 and prepare three progressive sample tiles showing each stage of the process.

Step 2: Mount the three tiles onto your A3 demonstration board with bold action headings and a 'Top studio Tip' callout.

Step 3: Write a concise three-bullet cue card including safety/setup, hand pressure control, and troubleshooting.

Step 4: Run a timed 90-second rehearsal with a partner and refine one step based on their question.

Success check

Three-stage exemplar board completed, cue card written, and partner rehearsal refined.

Key words helper

• demonstration: Showing someone how a practical skill works step by step while explaining key tips.

• sequence: Putting actions in the exact 1-2-3 order needed for success.

• exemplar: A physical sample tile showing what each stage should look like.

• cue card: A short prompt card with bold keywords to guide your demonstration.

• troubleshoot: Warning learners about one common mistake and how to avoid it.

Review checklist

[ ] Check that all three sample tiles are glued firmly to your demonstration board.

[ ] Confirm your partner could follow all three steps during your rehearsal.

[ ] Store your demonstration board alongside your finished relief panel for Week 7.
