Tier pack: Aspire route — Analysing a practitioner without copying the page

Pathway: SUMMIT · Week 3 Part 1 · Big question: How do we conduct rigorous visual analysis of a practitioner's work through annotated studies rather than biography copying?

Aspire route studio steps

Step 1: Deconstruct the exemplar through both a 5-value Tonal map and a directional Vector diagram in Box 1.

Step 2: Execute a high-precision mixed-media transcription in Box 2 testing wet-over-dry resistance.

Step 3: Develop a resolved mixed-media adaptation in Box 3 with full critical commentary on how the practitioner's methodology elevates your portfolio.

Success check

Tonal/vector maps, mixed-media transcription, resolved adaptation, and critical commentary.

Make-it studio planner

Build your three-box practitioner analysis without biography filler.

Options: Box 1: 3-value tonal skeleton, Box 1: Focal contrast halo, Box 1: Asymmetric balance map, Box 1: Counterchange grid

Review checklist

[ ] Check that your page has zero biographical filler and 100% visual/technical analysis.

[ ] Verify that arrows or numbered notes clearly link Box 1 (Tone), Box 2 (Process), and Box 3 (Your adaptation).

[ ] Add your practitioner sheet to your studio portfolio.
