Teacher and cover plan — Designing a peer studio workshop project

Pathway: SUMMIT · Week 5 Part 2 · Big question: How do we design a structured, safe, and inspiring practical workshop to lead our peers in building a relief study?

Learning goals and studio kit

• Design a 15-minute tabletop studio workshop teaching a specific structural relief or surface patina method.

• Produce a complete Workshop leadership Pack: Step-by-Step visual Exemplar board, Material prep List, and Safety risk Check.

• Build the three physical stage exemplars (Raw blank, Mid-Process, Resolved tile) that participants will follow.

Studio kit: A3 Workshop leadership boards, 6 cm greyboard/foil/corrugated sample blanks, cutting mats, safety rulers, PVA, dark wash, metallic dry-brush pigments

Arrival and starter

Arrival: In weeks 6 and 7, you step up as Studio workshop Leaders. What makes a 15-minute practical art workshop succeed smoothly?

Starter question: Why do effective workshop leaders prepare pre-sized base tiles for a 15-minute session rather than asking participants to measure and saw large boards from scratch?

Teacher model (I do)

Step 1: Define the 15-minute workshop focus and timing: I choose 'Laminated truss Joint with Ink-Wipe foil Gusset' and map the 2-10-3 minute timing on my Leadership board.

Step 2: Fabricate and mount the 3 Stage Exemplars: I build and mount Tile 1 (Laminated beams), Tile 2 (Embossed foil gusset attached), and Tile 3 (Dark wash wiped to reveal high ridges).

Step 3: Complete the Kit list and Risk assessment: I list the exact blank sizes needed for four participants and write the safety controls for foil edges and glue spreaders.

Practice routes (Supported / Independent / Aspire)

Supported: Three stage tiles mounted, kit list ticked, safety rule written, and four participant blanks prepped.

Independent: Complete workshop Leadership board, three mounted stage exemplars, risk check, and prepped participant kit.

Aspire: Four-tile exemplar board (including stretch model), full risk/contingency plan, and prepped kit.

TA and cover notes

TA focus: Provide zip-wallets for each pupil so they can store their pre-cut participant blanks alongside their A3 Workshop leadership Board.

Staff prep: Staff preparation only: review how to guide pupils in designing a safe, time-bounded 15-minute peer studio workshop.
