Muscle Model · Tier Pack · Supported

Learning goal: I can test a card and string arm model to show how two muscles pull a joint.

Supported Route (Book First)

Match the three model parts (card, pin, string) to (bone, joint, muscle) and tick what happens when String A pulls.

Help: Card = bone. Pin = joint. String = muscle. Pull String A = arm bends up.

Optional Make It · Supported

Match part cards to the model

Place the Bone, Joint, and Muscle word cards directly onto the card arm model. Tick your result table in your book.

Word Help

model: a simple copy we use to test how something works

hinge: a joint that bends and straightens like a door

string: the part in our model that acts like a muscle

card strip: the stiff part in our model that acts like a bone

Exit Check

What body part does the string stand for: bone or muscle?
