Muscle Model · Word Page

Learning goal: I can test a card and string arm model to show how two muscles pull a joint.

Words for This Lesson

model: a simple copy we use to test how something works

hinge: a joint that bends and straightens like a door

string: the part in our model that acts like a muscle

card strip: the stiff part in our model that acts like a bone

How to Use These Words

Point to a word when you explain your idea.

Help: We need two strings because one string can only __, so String B must pull the arm __.
