Balanced Plate · TA Brief

Learning goal: I can use a plate guide to see which food groups take up the most space.

Watch (staff preview first)

Short silent teacher demonstration clip for this lesson's model and practical sequence · preview before class use.

Adult Support Routine

No cold calling; nobody is asked to read difficult text aloud.

Give time to start -> point to the relevant place -> rephrase -> offer a small prompt or word bank -> reduce to a limited choice.

Beside the You do in the pupil book, mark I (independent), S (supported) or C (choice).

Must-Know Words

plate guide: a circle chart that shows how much of each food group we need

portion: the amount or share of a food group on the plate

starchy food: foods like bread, rice, oats, and potatoes that give steady fuel

dairy: milk, cheese, yoghurt, or plant swaps that help keep bones strong

Key Answers

A. The size of each section shows how much of that food group our body needs.

A. Fruit and vegetables and starchy carbohydrates make up over two thirds of the plate guide.

1. Fruit and veg. 2. Milk, cheese, or yoghurt helps keep bones and teeth strong. 3. Because our body needs large shares of fruit, veg, and starchy food, moderate protein and dairy, and only tiny amounts of oil/sweets.
