Balanced Plate · Tier Pack · Aspire

Learning goal: I can use a plate guide to see which food groups take up the most space.

Aspire Route (Book First)

Explain why a small snack does not need all five groups if the whole day's meals match the plate guide.

Help: Our body uses food across the whole day, so a fruit snack can add to lunch and dinner to balance the ___.

Optional Make It · Aspire

Make a full-day balance planner

Show how breakfast, lunch, and dinner work together to match the plate guide proportions across a whole day.

Word Help

plate guide: a circle chart that shows how much of each food group we need

portion: the amount or share of a food group on the plate

starchy food: foods like bread, rice, oats, and potatoes that give steady fuel

dairy: milk, cheese, yoghurt, or plant swaps that help keep bones strong

Exit Check

Which group has a bigger space on the plate guide: fruit and veg or cooking oil?

Name one food from the dairy group and say what it helps in the body.

Why are the sections on the plate guide not all the same size?
