Food Sources · Staff Answers

Learning goal: I can say if a food comes from a plant or an animal and group animals by what they eat.

Arrival Answers

1. A plant.
2. An animal.
3. Grass and leaves (plants).
4. Yes. You can ask or pass.

Starter & Hinge Answers

Starter: A. Every food traces back to a living source: a plant, an animal, or both.

Hinge: A. Berries and roots are plants, and fish are animals, so the bear eats both (omnivore).

Evidence Desk Cards

Loaf of bread and porridge oats: Plant source: wheat and oats are grass plants.

Cheddar cheese and scrambled egg: Animal source: milk comes from cows and eggs come from hens.

Rabbit eating clover and grass: Herbivore: eats only plant parts.

Barn owl hunting field mice: Carnivore: eats only other animals.

Robin eating worms and berries: Omnivore: eats both animals (worms) and plants (berries).

Chips and tomato ketchup: Plant source: both potatoes

and tomatoes grow on plants.

Check & Repair Answer

Always trace processed food back to the living thing it came from: potatoes grow on plants.

Exit Ticket Answers

1. A plant. 2. Rabbit, cow, sheep, or deer. 3. Its food clues include both plant foods (like berries or seeds) and animal foods (like worms, insects, or fish).
