Food Chain Investigation · Tier Pack · Independent

Learning goal: I can build a food chain starting with a plant and point the arrows the right way.

Independent Route (Book First)

Build and write two 3-step food chains (one meadow, one woodland) and explain what the arrow means.

Help: __ -> __ -> __. The arrow points from __ to __ because it means '__'.

Optional Make It · Independent

Make a 3-link paper food chain strip

Link or fold three card boxes with two bold arrows (Plant -> Herbivore -> Carnivore), label Producer and Consumers, and write your chain in your book.

Word Help

food chain: a line of living things that shows who eats what

producer: a green plant at the start of a food chain that makes its own food

consumer: an animal in a food chain that eats plants or other animals

is eaten by: what the arrow (->) means in a food chain

Exit Check

Which living thing goes first: grass or rabbit?

Made by Matt

Write one 3-step food chain with arrows pointing the right way.
