

Week 4 Make controls reliable

Challenge · GROW computing · 40 minutes

Name: _____ Date: _____

I can create and test all four arrow controls in my maze.

Point, say, draw or write. Someone may record your exact words.

Arrival > Starter > I Do > We Do

I Do 2 > We Do 2 · Task > Independent Task > Exit

Shared lesson 0 to 25 minutes

Open your own W03_Maze.sb3.

Join the Starter, I Do and We Do tasks with the class. Predict before each shared test.

GROW stage	What I will check
Starter	The up key changes x by 10.
I Do	Right and left use x.
We Do	Choose the correct axis for up.
I Do 2	Up and down use y.
We Do 2 · Task	Reset Player.

The common task comes first

During Independent Task, complete these core actions before the challenge:

- ☐ Select Player in your own maze.
- ☐ Record a safe start from its x and y boxes.
- ☐ Build a green-flag script that goes to that start.
- ☐ Build separate right, left, up and down key scripts.
- ☐ Reset before testing each direction with one press.
- ☐ Test right, up, left, down from reset. Check the return.

A further coding investigation

Independent Task 25 to 35 minutes · Use remaining task time

1. Complete and test all four controls first.
2. In a spare copy, change Player direction from 90 to 0.
3. Predict and test right arrow using change x by 10.
4. Compare it with move 10 steps. Keep x/y controls in your final file.

What I changed	My prediction	What happened

My reason or repair

My idea and its effect

Which key or action needs clearer help? Choose a useful support or step-size change and test it.

What I said

What the adult said back and what changed

What I said, and what it changed. You can say this privately or have your words written for you.

Exit 35 to 40 minutes

- ☐ Save as W04_Controls.sb3.
- ☐ Load the saved file.
- ☐ Run the check or select the three sprites.

File > Save to your computer. Then File > Load from your computer. Keep the .sb3 file in your school folder.
