The common task comes first

During Independent Task, complete these core actions before the challenge:

- ☐ Open your own game. Use the named setup for each test. Repeat it when retesting.
- ☐ Run the five checks: arrows, walls, finish, extra feature, restart.
- ☐ Write expected and actual for each check.
- ☐ Choose a peer or teacher tester. Record their exact words.
- ☐ Repair a fault if found, or improve the playing instructions. Record what changed.
- ☐ Retest the same five checks. Save as W08_Final.sb3.

A further coding investigation

Independent Task 25 to 35 minutes · Use remaining task time

1. Complete the five checks and any necessary repair first.
2. Add one edge case from a known start: a corner, a narrow gap, or contact during a glide.
3. Explain what the edge case checked. Record its result even when it passes.
4. Retest the earlier checks and record what passed or still needs work.
