

# Evidence: kit and scenario cards

## Sunlight: make a safer plan

Name \_\_\_\_\_ Date \_\_\_\_\_

Constructed planning cases. Do not test any item by looking at the Sun.

### A • Dark lenses

The glasses are dark. Their UV protection has not been confirmed.

### C • Brimmed hat

A wide brim provides extra shade around the face and eyes.

### E • Beside water

Bright sunlight can reflect from the water. The group is planning an outdoor break.

### B • Checked glasses

A reliable check confirms suitable UV protection and a good fit for the wearer.

### D • Shaded area

A suitable shaded place is available for the break.

### F • Missing protection

Only unverified dark glasses are available. A supervised indoor option is available.

**W1. Choose a kit from A-D. Explain one choice.**

---

---

**W2. Correct: “Sunglasses make Sun watching safe.”**

---

---

## Route 1 • Choose and explain

Word bank: UV / shade / hat / never.

**S1. Which glasses have useful protection evidence?**

A. A

B. B

**S2. Choose two extra ways to reduce exposure from cards C and D.**

---

---

**S3. Can we see UV with our eyes?**

A. Yes

B. No

**S4. Complete the rule: \_\_\_ look directly at the Sun.**

---

---

**S5. Why is lens darkness alone not enough information?**

---

---

## Route 2 • Write a useful safety brief

Use scenario E beside water. Write for another pupil.

**T1. Explain two ways sunlight could reach the group.**

---

---

**T2. Choose glasses A or B and explain the evidence.**

---

---

**T3. Add two practical parts to the protection plan.**

---

---

**T4. Write the rule about looking at the Sun.**

---

---

**T5. Explain why the plan reduces exposure but does not make every action safe.**

---

---

## Route 3 • Make a decision under uncertainty

Use scenario F. Do not guess that dark glasses have UV protection.

**X1. What information is missing?**

---

---

**X2. Choose a sensible immediate plan using the available options.**

---

---

**X3. How could an adult check suitable eyewear for a future outdoor break?**

---

---

**X4. Explain why “it does not feel bright” is not a reliable UV test.**

---

---

---

## Exit and reflection

Point, draw, write or tell an adult.

**E1. Why do we protect our eyes from sunlight?**

---

---

**E2. Name two ways to reduce exposure.**

---

---

**E3. Do ordinary sunglasses make Sun viewing safe?**

---

---

**R1. Which idea did you improve after hearing evidence?**

---

---

**R2. What would you investigate or ask next?**

---

---
