White standard edition

Explore stories of resilience from sacred texts.

Check your comparison

Have I shown who kept going in both stories?
Have I named what helped in each?
Have I suggested one teaching from each story?

Your short response

To me, resilience can mean ____.

One story shows this when ____.
A safe next step could be ____.

Use two or three short sentences in your book, or tell an adult what to scribe. Use your own idea and a detail from a story.

Ideas to think about

asking for help / planning one step / working with others / taking a pause / trying a different safe way

You can give a general meaning. No personal hardship account or agreement with a faith is needed.
