My reflection on change

White standard edition

Discuss a 'big question' about change respectfully.

Our big question

Does change make us stronger?

My short reflection

My answer for now is ____ because ____.
Another idea I heard or read is ____.

Use about two short connected sentences in your book or tell an adult what to scribe. A reason may come from a card or the invented example. You may keep, change or question your view.

My respectful response

I built on an idea / asked a kind question / disagreed kindly / passed for now.
I responded by ____.

Words to help

sometimes / not always / it depends / not sure

A private exchange, pointing or dictated words can be used. No personal hardship or belief needs sharing. A full pass is respected and can be revisited later if wanted.
