Teacher and cover planner

Reporting concerns and seeking help

Wednesday 3 February 2027 · P3 · 40 minutes · Year A

GROW PSHE · Spring 1 Week 5 · up to five learners · formative

Theme Resilience & Change. Six week term; Week 6 assessing.

Thread tags: SMSC S/So; British Values IL/MR. Other tags not claimed.

Exact outcome

Know how to report concerns and seek help.

GROW Weekly Spring row 68 C68. Exact outcome checked. Owner supplies the date, period and group. This is a formative lesson.

Purpose

Spot a concern in the story. Choose a school support role and an outside support role. Give a private way to ask. Explain a safe action, what may happen next and how to ask again. For an online step, use your story or the online model A. All scenes are invented, mild and offline. Do not ask for a real concern or account.

Cover preparation

Read Staff Answers. Prepare books, printed Support Cards, glossary and usual aids. Offer the typed Evidence Sheet if useful. Agree the private help and supervised pause route with an available adult before teaching. Follow the same cases and choices if covering.

Forty minute sequence

Phase	Time	Action
Arrival and starter	0–5	Settle, agree private help and pause; choose a concern or explain why help is valid.
Input	5–10	Define concern and school/outside support types; report even when unsure.
Model and guided work	10–17	Model A with stop, tell, supported report and what next. Match steps or improve advice.
Private hinge and choice	17–22	Check no proof or secrecy needed. Choose task and response mode.
Individual task	22–34	Report map B or support note C; include optional private three-role card.
Review	34–38	Use shared checks; one next step and pupil response.
Private exit	38–40	Explain a next route or correct a reporting myth. Confirm help.

Total 40 minutes. Processing time and short quiet pauses sit inside these phases. Choices B and C share one task period. The private card is optional, not an extra assessed task.

Where this leads

This helps me raise a concern and ask for support in school, a group or future work.

Teaching and response routes

Starter choices

Choose whether a private note shared without asking could be a concern. Or explain why a person may ask for help even if unsure. Use the invented learner only.

Input

A concern is something that may affect a person's safety or wellbeing. A person can ask for help even if they are not sure. They do not need proof or a severe problem first. A worry that lasts, repeated unkind replies, private details shared without consent, or a request that makes someone feel unsafe can be concerns. No unkind words or private details are shown in this lesson. A person can report a concern for someone else too.

Model A

A young person sees repeated unkind replies about a craft task in an invented group chat. No unkind words are shown. They stop replying and want help. Repeated unkind replies may affect wellbeing. School staff can listen, follow the school route and help use report or block tools. The learner can ask what comes next and when to check back. They could ask: Can we talk in private? I need help with unkind replies.

Guided choices

Match Stop replying then tell a trusted adult to a safe report route. Or improve Wait for proof before asking. Model asking now, then reduce answer cues while keeping the visible model and usual aids.

Two equal main choices

Choose report map B or support note C. Both show the concern, school and outside roles, private opener, safe action, possible next step and a fallback. A map may be a list; a note needs no extra length. Both use books, typing, aids or exact scribing. No public talk or compulsory role play.

Supported

Choose either task. Keep the short bank, starter and visible model. Offer two support roles if needed. Point, type, use a usual aid or exact scribe and readback. Separate content cues from usual access.

Independent

Choose either task. Explain the concern, a fitting adult role and private opener. Give a safe action and what to ask about next. Keep usual aids and the model.

Aspire

Choose either task. Compare school and outside support. Adapt the route if the first adult is busy or a report tool does not help. Explain why proof or a secrecy promise is not needed. No personal account required.

Private keep card

My three people is an optional private card for three support roles, never names. Any or all spaces may stay blank; use an invented learner or pass. Keep it with the pupil. Do not collect, photograph, display, compare or copy it into evidence. Three filled spaces are not a success test. An agreed scribe returns it to the pupil. Offer it within individual work. Assess the fictional task without looking at the card.

Task aids and access

Starter

Words: concern · safety · wellbeing · help

Start: A concern could be…

Model: A private note shared without asking can be a concern.

Support and reporting

Words: trusted adult · school staff · private

Start: The person could tell…

Model: They could tell trusted school staff in private.

Model A

Words: stop · tell · report · next

Start: First… Then…

Model: Stop replying. Ask an adult for report help.

Private hinge

Words: unsure · proof · ask · help

Start: They can ask because…

Model: They can ask for help even if they are unsure.

Main task choice

Words: concern · role · opener · check back

Start: The learner could… because…

Model: Ask school staff because private details were shared.

Private keep card

Words: role · school · outside · another

Start: A role that could help is…

Model: For the invented learner, school staff could help.

Review and exit

Words: next step · explain · another adult

Start: If help is not enough…

Model: Ask another trusted adult through the agreed route.

Response modes

Books are the first route. Evidence Sheet page 2 offers Type instead for both choices. Point, draw, use a usual aid or exact scribe. Read back quietly and allow correction. Keep reading and language aids. Plan in any language. No public questioning.

Prompt ladder

Point to the place or instruction. Ask a short private question. Rephrase. Offer a scaffold or choice. Model the first step only, then return the task. Allow time. Record answer cues apart from usual access.

Lesson resource · CC BY-NC-SA 4.0: free for classroom use, share and adapt with credit, no resale

Checks and planned access

Main private hinge

The learner is unsure if a shared routine note is a concern. What should they do? A Wait until they have proof. B Ask a trusted adult privately now. C Share copies with more people. D Keep it secret if someone asks. Check privately. B or safe equivalent with a reason: proceed. A means proof is wrongly required; C spreads private content; D accepts secrecy. Re-model with the fictional case and use parallel A. Pass or no response is unobserved; revisit with support, not a failure label.

Parallel check

The first adult is busy. A Ask another trusted adult through the agreed route. B Give up and keep the concern secret. Correct A. Another adult can help; the person need not give up. A pass is unobserved.

Questions in private

F Who could the story learner tell? M Why can they ask without proof? H What if a report tool or first adult does not help? Use words, note, pointing or usual aid. No public questioning.

Misconceptions

Proof is not needed before asking for help. A private talk does not mean secrecy: adults may need to share a safety concern. Report and block tools do not guarantee a result. Adult help can continue.

Planned adaptations

Cognition and Learning: one part at a time, visible model and short choices. Communication and Interaction: wait time, aid, typing or exact scribe with quiet readback. SEMH: predictable mild cases, private response, pass, neutral task and supervised pause. Sensory and Physical: clear print, comfortable position and usual aids. EAL: explain key words and plan in any language.

TA focus

Input: model A and support roles. Guided work: offer a step match or advice repair. Independent: check chosen work privately, record actual aids and answer cues, acknowledge pause signals and keep supervision. Do not fill missing answers or press for a personal report.

What may happen next

An adult should listen, take the concern seriously and explain the next step in a way the person can understand. They may need to share information with the safeguarding lead or other people who can help keep someone safe. They cannot promise a secret. A report tool may send a reply or check the content; it may take time and may not resolve the concern. The learner can keep asking for adult help. No fixed result or time is promised.

Evidence cover and private support

Evidence judgement

Use fictional work only. Check concern, school and outside roles, opener, safe action, possible next step and fallback. Keep partial work and record actual prompts. A pass is unobserved. A story answer does not prove real help seeking or personal safety. The private three-role card is not evidence.

Review and exit

Use shared checks or improve A report always fixes the problem at once. A report may take time or not solve it; trusted adult help can continue. Set one precise NS and retain the reply. Exit: give a next route or correct You need proof before asking. The learning self-check is Ready to explain / With a prompt / Need another example. It does not rate wellbeing.

Feedback and portfolio

Retain actual fictional learning evidence, usual access and content prompts. Set one NS and allow a reply in the same colour, on the same page or usual mode. E only for actual saved work. R only after Voice, Audience, one NS and an actual pupil response. Offer to the Communication portfolio; staff confirm any mapping. Personal support cards and real concerns are not learning evidence.

Non specialist cover

Use only the supplied definitions and cases. If display or typing fails, read cards with a book, aid or scribe. No phone, internet, real post or live report is needed. Do not ask learners to open, save, copy, download or forward concerning content. Staff decide safe recording through school procedures. Never promise secrecy, removal, an outcome or a fixed response time.

Private help

Use a trusted adult or school staff in private. Point to HELP, write a request or say Can we talk in private. Ask another trusted adult if the first is busy or help is not enough. Outside school, a trusted adult can help contact a family doctor or a suitable helpline. For an immediate safety concern, get adult help at once and follow the urgent help route; do not wait for an online reply.

Discreet step out

Before teaching, agree a discreet HELP or PAUSE signal and the familiar supervised place and route. Staff acknowledge the signal quietly and keep adult support. No public reason is needed. Offer a neutral task, supported return or private catch-up. Do not send a learner away alone.

Safeguarding

Any disclosure goes to the safeguarding lead through school procedure. Listen calmly, reassure, do not probe, investigate or promise secrecy. Follow urgent school procedures for immediate concerns. Keep real concerns and identifying details in the separate safeguarding record, not learning evidence. A pupil unable to identify a trusted adult is supported privately, not pressed.
