Learning outcome: Place key protest/rights events on a timeline (chronology).

Five selected rights and protest events in the UK and the United States. This is a short selection, not the whole story of rights.

You may point, write, type, speak privately or direct a scribe. Reading aloud and public answers are optional. You may pass.

Today I can

I can match each event to its date.

I can put all five events from earliest to latest.

I can use a date to explain one place on my timeline.

Our class task

Date Finder chooses a date and says which year comes first. Event Checker keeps the date and event together and checks the source card. Swap after one turn. Each pupil then makes an individual five-event strip.

Your own task

In your book, make your own strip of all five events. Use the cut-out labels or write five date-and-event pairs. Put the earliest first. Check each pair against its card. Add one sentence: ____ comes before ____ because ____.

Use one route page. Keep the five event cards nearby. An adult can read the words while you choose the order.

Learning outcome: Place key protest/rights events on a timeline (chronology).

1 Use all five event cards and the year mat. An adult may read the cards. Find the smallest year first.

2 Build your own strip of five in your book. Use one date-and-event label at a time. Check it before adding the next.

3 Point, say or write one reason with this frame: ____ comes before ____ because ____ is the earlier year.

Your own finish

In your book, make your own strip of all five events. Use the cut-out labels or write five date-and-event pairs. Put the earliest first. Check each pair against its card. Add one sentence: ____ comes before ____ because ____.

Frame: ____ comes before ____ because ____.

You may plan in any language. The adult can read or scribe your exact choice. Keep a note of the help used.

Learning outcome: Place key protest/rights events on a timeline (chronology).

1 Build and check your own five-event strip. Keep every date and event together.

2 Work out the gap in calendar years from 1918 to 1955. Does equal spacing on the strip show that real gap? Explain.

3 Test a new date pair from the same year: 2 July 1964 and 28 August 1964. Explain how months settle the order. These extra dates are date practice, not extra event cards.

My reason

In your book add: ____ comes before ____ because ____.

My check

I checked five matches and five places. I read the years first. I kept each event with its date. Equal boxes show order, not equal gaps.

Use the agreed quiet signal to ask the adult for a pause. Use the usual supervised place. No public reason is needed. Rejoin with one date check or a private recap. A neutral task with number cards is available.
