

Arrival choices

Previous lesson reminder:

Start with 1 and 2. Try 3 and 4 when ready. Reading and exact scribing are available.

1 Which of the three countries lies beside the Pacific?

Support: Use the reminder strip or talk it through with an adult.

My response

2 Which meaning fits settlement?

Support: Choose: A place where people live OR Growth in the share of people living in urban places.

My response

3 What is the park's four-figure reference on the practice grid?

Support: Use the model evidence anchor grid or read one relevant card together.

My response

4 What does a four-figure reference identify?

Support: Give a reason when ready.

My response

Stretch: use a precise example or explain which detail supports your answer.

Evidence cards

Read, point or listen. Keep the source label with any detail you use.

A Local reference points

The Middlesbrough railway station and the Transporter Bridge are reference points on our digital map. Toggle layers to examine their positions. Town Hall lies beyond this map's southern boundary.

Source: OpenStreetMap place references; approximate labelled coordinates

Limit: These points alone cannot show population density or prove why development happened.

B Reasons places grow

Work, transport and services can attract people and businesses. A growing town may need more homes and infrastructure. Population growth can also occur within existing settlements.

Source: Authored geographical explanation

Limit: A reason is a hypothesis until tested against evidence for a particular place.

C Practice land-use sample

Fictional practice tally: shops 8, homes 12, public services 4, green spaces 6. This is training data only. Replace it with your dated observations for the fieldwork enquiry.

Source: Authored classroom case

Limit: This example does not describe every person or place.

D Contrasting reference place

Compare a small centre such as Helmsley with central Middlesbrough at comparable map scales. Record the area, source and date used.

Source: OpenStreetMap linked views

Limit: One sampled street does not represent a whole settlement.

Visual resource

Use this visual with the evidence cards and enquiry questions.

A detail I noticed and what it helps me explain

Shared investigation

1. Read eastings before northings on the practice grid.

2. Set a partner a location challenge.

Work with a partner or adult, or use your own table. One person suggests; the other checks the evidence. Swap after one turn. Passing is allowed.

Use the evidence cards and any visual sheet. Follow the two shared steps above, then record one decision.

Our explanation

Support: Read one evidence card together. Highlight a useful detail. Rehearse with: Along the corridor, then up the stairs: easting ____, northing ____.

Further challenge: Use tenths within a square to describe a more precise location and explain the extra detail.

Supported independent task

Complete this route only. Use an atlas and grid references to describe location.

1. Use the supplied grid to find three places.
2. Give a four-figure reference and a direction between two places.
3. Complete one new location question independently.

Support: Read one evidence card together. Highlight a useful detail. Rehearse with: Along the corridor, then up the stairs: easting ____, northing ____. Complete the organiser one space at a time. Along the corridor, then up the stairs: easting ____, northing ____.

Places and symbols or grid references

Location or direction statement

Pattern using the map evidence

What this map does not show

An adult may read or scribe your exact response. They should not choose the answer.

Standard independent task

Complete this route only. Use an atlas and grid references to describe location.

1. Use the supplied grid to find three places.
2. Give a four-figure reference and a direction between two places.
3. Complete one new location question independently.

Support: Along the corridor, then up the stairs: easting ____, northing ____.

Places and symbols or grid references

Location or direction statement

Pattern using the map evidence

What this map does not show

Check the required evidence and revise one detail.

Stretch independent task

Complete this route only. Use an atlas and grid references to describe location.

1. Use the supplied grid to find three places.
2. Give a four-figure reference and a direction between two places.
3. Complete one new location question independently.
4. Use tenths within a square to describe a more precise location and explain the extra detail.

Support: Choose the evidence independently. Use the frame only if it helps.

Places and symbols or grid references

Location or direction statement

Pattern using the map evidence

What this map does not show

Use tenths within a square to describe a more precise location and explain the extra detail.

Exit ticket

Choose a response mode. You may give your answers privately to an adult.

What is the park's four-figure reference on the practice grid?

My response

What does a four-figure reference identify?

My response

Support: Along the corridor, then up the stairs: easting ____, northing ____.

Further challenge: Use tenths within a square to describe a more precise location and explain the extra detail.

One thing I changed or want to check
