

Settlement and urbanisation

Learning goal: Explain settlement and urbanisation.

Words to use

Word	Meaning
settlement	A place where people live
urbanisation	Growth in the share of people living in urban places
land use	What land is used for
GIS	Mapping information in separate data layers

Remember

Is adding buildings alone enough to prove national urbanisation? No. Urbanisation concerns the share of people living in urban places.

What further evidence would show population change? Comparable population data from different dates.

How to show your learning

Explain how work, transport and services can contribute to settlement growth.

A place may grow because _____. This can lead to _____. Urbanisation specifically means _____.

Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

You can respond by speaking, pointing, drawing, typing or writing. A fictional personal example is welcome.
