

Teacher card

Settlement and urbanisation / LAUNCH_A2_W03

Outcome: Explain settlement and urbanisation.

Evidence to retain: F: explanation and two exit questions.

Forty minute route

Arrival 4 min; starter 3; model 6; shared task 7; check 2; independent 12; review 3; exit 3.
Pause time is flexible.

Preparation

Choose one independent route. Print the evidence and shared cards, required visual or data sheet, route worksheet and exit. The organiser is one separate A4 page. Keep answers with staff.

Use school fieldwork arrangements. No pupil names or photographs of identifiable strangers are needed. Indoor observation is valid when accurately labelled.

Access and regulation

Pre-teach terminology and model evidence use. Chunk sources and data; provide an initial frame, then reduce it. Maintain normal access arrangements. Extend by weighing limitations, alternative explanations and evidence quality. Adults support access and evidence selection without supplying answers.

Offer a predictable start, private response and agreed pause. No cold calling or forced personal disclosure. Rejoin at one clearly named next step. Keep teen-appropriate examples and the same learning goal across response modes.

Use sensitive content warnings where relevant. Do not ask for family details or personal experiences.

Assessment

Use questioning and the exit response to decide the next step. Record the learner's individual contribution and the access support used.

UAS: no approved unit code is supplied. Match the learner's evidence to the centre-selected unit and exact criteria before submission. This pack makes no automatic award claim.

Model and answers

Read these pages before teaching. Hide the model during independent assessment.

Question: Is adding buildings alone enough to prove national urbanisation?

Evidence: B Reasons places grow: Work, transport and services can attract people and businesses. A growing town may need more homes and infrastructure. Population growth can also occur within existing settlements.

Think aloud: No. Urbanisation concerns the share of people living in urban places.

Check: What further evidence would show population change? Comparable population data from different dates.

Arrival answers

1. It displays a selected type of spatial information over a map.
2. A place where people live
3. No. Urbanisation concerns the share of people living in urban places.
4. Comparable population data from different dates.

Shared activity reasoning

1. Share living in urban areas rises — Urbanisation. This describes the population share.
2. A street has eight shops — Land-use observation. This is a sample count, not a population trend.
3. More jobs attract residents — Possible growth explanation. It must be checked against local evidence.

Exit responses

Is adding buildings alone enough to prove national urbanisation? No. Urbanisation concerns the share of people living in urban places.

What further evidence would show population change? Comparable population data from different dates.

Teaching and evidence record

Supplied scheme of work teaching sequence: Sort rural/urban images and map evidence; use a diagram/data set to explain how and why places grow.

Look for

F: explanation and two exit questions.

Accept accurate equivalents, including speech or exact scribing. Check the concept and use of evidence rather than length or handwriting. Record access support separately from content prompting.

BUILD: a concrete example with a reason or demonstrated action. GROW: explain or compare with a relevant detail. LAUNCH: connect evidence and reasoning; use a limitation when the outcome requires it. Keep RE responses non-GCSE.

Media

Original captioned teaching model made for this pack. It demonstrates the supplied reasoning; it is not historical footage, survivor testimony or a documentary. The full transcript and factual source credits are included.

Use manual steps for a calm pace. The silent MP4 has visible captions and a matching text transcript. External archive media is optional and should be previewed before class.
