

Local fieldwork and data collection

Learning goal: Conduct local area fieldwork and collect data.

Words to use

Word	Meaning
settlement	A place where people live
urbanisation	Growth in the share of people living in urban places
land use	What land is used for
GIS	Mapping information in separate data layers

Remember

Why agree categories before counting? It makes observations more consistent and comparable.

Can fictional training data be submitted as your fieldwork? No. Keep actual observations and practice data clearly separate.

How to show your learning

Collect dated observations for a small agreed local area or accessible school site.

Question _____. Area and time _____. We counted _____ using _____. My observations _____.

Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

You can respond by speaking, pointing, drawing, typing or writing. A fictional personal example is welcome.
