

Evaluating causes and consequences

Learning goal: Complete a structured evaluation of causes and consequences.

Words to use

Word	Meaning
conflict	A serious struggle including war
persecution	Deliberate unfair targeting of a group
Holocaust	The Nazi-led genocide of six million European Jews
testimony	A person's account of what they experienced

Remember

Did war automatically cause the Holocaust? No. Nazi antisemitism, deliberate decisions and policies were central; war and occupation expanded opportunities for persecution and murder.

What should an evaluation add to a list of events? Supported links, weighed explanations and a conclusion.

How to show your learning

Write a structured evaluation of causes and consequences using the unit sources.

One factor was _____. This contributed through _____. A consequence was _____. Overall _____, with the limit _____.

Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

You can respond by speaking, pointing, drawing, typing or writing. A fictional personal example is welcome.
