

Teacher card

Fair and unfair decisions / BUILD_S2_W02

Outcome: Talk about what is fair and unfair.

Evidence to retain: F: decision and reason.

Forty minute route

Arrival 4 min; starter 3; model 6; shared task 7; check 2; independent 12; review 3; exit 3.
Pause time is flexible.

Preparation

Choose one independent route. Print the evidence and shared cards, required visual or data sheet, route worksheet and exit. The organiser is one separate A4 page. Keep answers with staff.

Use fictional situations. Do not ask learners to disclose neglect, conflict or personal experiences of unfairness.

Access and regulation

Use one-step instructions, symbols and a model first. Offer talk, point, draw, type or write. Reduce the number of choices; extend by asking for a reason or a second example. Adults prompt the first response then fade support.

Offer a predictable start, private response and agreed pause. No cold calling or forced personal disclosure. Rejoin at one clearly named next step. Keep teen-appropriate examples and the same learning goal across response modes.

Use sensitive content warnings where relevant. Do not ask for family details or personal experiences.

Assessment

Use questioning and the exit response to decide the next step. Record the learner's individual contribution and the access support used.

UAS: no approved unit code is supplied. Match the learner's evidence to the centre-selected unit and exact criteria before submission. This pack makes no automatic award claim.

Model and answers

Read these pages before teaching. Hide the model during independent assessment.

Question: Is fairness always identical treatment?

Evidence: B A fair turn: Fictional case: three pupils share one tablet. Jo needs text read aloud. The group can agree turns and switch on speech support. Equal dignity does not always mean identical support.

Think aloud: No. Different needs may require different support.

Check: What should a reason connect? The chosen action and the need it meets.

Arrival answers

1. The Samaritan.
2. Giving people a fair chance and meeting needs
3. No. Different needs may require different support.
4. The chosen action and the need it meets.

Shared activity reasoning

1. Read the instructions or offer audio — Fair access. The pupil can access the same activity.
2. Exclude the pupil — Unfair access. The barrier remains and participation is removed.
3. Ask which format helps — Fair access. It gives the pupil a meaningful choice.

Exit responses

Is fairness always identical treatment? No. Different needs may require different support.

What should a reason connect? The chosen action and the need it meets.

Teaching and evidence record

Supplied scheme of work teaching sequence: Discuss a fairness dilemma with choice cards. Sort examples together; explain one independent decision.

Look for

F: decision and reason.

Accept accurate equivalents, including speech or exact scribing. Check the concept and use of evidence rather than length or handwriting. Record access support separately from content prompting.

BUILD: a concrete example with a reason or demonstrated action. GROW: explain or compare with a relevant detail. LAUNCH: connect evidence and reasoning; use a limitation when the outcome requires it. Keep RE responses non-GCSE.

Media

Original captioned teaching model made for this pack. It demonstrates the supplied reasoning; it is not historical footage, survivor testimony or a documentary. The full transcript and factual source credits are included.

Use manual steps for a calm pace. The silent MP4 has visible captions and a matching text transcript. External archive media is optional and should be previewed before class.
