

## Matching care to a need

Learning goal: Identify ways to care for others with PSHE links.

### Words to use

| Word           | Meaning                                       |
|----------------|-----------------------------------------------|
| fairness       | Giving people a fair chance and meeting needs |
| care           | Acting to help with a need                    |
| right          | A basic entitlement held by people            |
| responsibility | Something we should take care to do           |

### Remember

What could help someone find resources? A clear shelf label, an accessible list or a guided introduction.

Why ask what helps before acting? It avoids assuming the person's needs or wishes.

### How to show your learning

Plan a response to a new student who cannot find the reading resources.

They need \_\_\_\_\_. We could \_\_\_\_\_. We would check by \_\_\_\_\_.

### Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

You can respond by speaking, pointing, drawing, typing or writing. A fictional personal example is welcome.
