

Geography and worldviews assessment

Learning goal: Complete a Geography and worldviews assessment and map-skills check and bank UAS evidence.

Words to use

Word	Meaning
climate	Weather patterns over a long period
hazard	A process or event with potential to cause harm
effect	A consequence
response	An action taken because of a situation

Remember

What three kinds of evidence does this assessment combine? Map skills, a climate or hazard explanation and a comparison of community responses.

Why should the source type be named? It distinguishes measured data, an explanatory source and a fictional teaching account.

How to show your learning

Complete a map check locating Japan and two climate-zone examples.

Location _____. Evidence _____. Explanation _____. Similarity or difference _____.

Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

You can respond by speaking, pointing, drawing, typing or writing. A fictional personal example is welcome.
