

Analysing hazard data for a report

Learning goal: Analyse hazard data in spreadsheets and produce a digital report.

Words to use

Word	Meaning
tectonic	Related to movement of Earth's plates
exposure	People or things in harm's way
vulnerability	Conditions making harm more likely or severe
risk	Potential harm from a hazard in a particular setting

Remember

Which units belong on the temperature axis? Degrees Celsius.

Can selected station maxima establish the temperature of every street? No. Coverage, exposure and local conditions vary.

How to show your learning

Enter or check the case-study data and create a labelled graph.

The highest value in this selection is ____ at _____. The range is _____. This sample cannot establish _____.

Evidence matters

Fictional cases are teaching examples. Historical, geographical and religious claims use the named sources. A model video demonstrates a method.

You can respond by speaking, pointing, drawing, typing or writing. A fictional personal example is welcome.
