TA brief

Autumn 2 · Week 2 · Lesson 2 · Wednesday 11 November 2026

GROW uses Independent as the starting route. Offer Supported and optional Aspire without changing the weekly outcome. Use a pair and a trio for five learners; rotate player, pulse keeper and listener so every pupil learns a part and has a personal record. Agree a quiet stop cue. Model following one instruction at a time: look, wait, play, stop. Quiet finger taps, silent pointing or signs are valid access modes; offer a quiet space and a pause. Do not require solos or a public audience. Scribe exact words or confirmed choices, read them back and allow corrections. Plan in any language before sharing in the chosen mode. Give one precise success and one NS next step. The pupil responds in the same colour, on the same page or usual mode, then tries the part again. Record R only when Voice and Audience are present, one NS has been set and the pupil has responded. Use VF / WS / I / NS / // / ? / E / R accurately.

Prompt ladder

1. Point to the relevant place or instruction.
2. Ask one short question.
3. Rephrase the instruction.
4. Provide a scaffold or a choice.
5. Model the first step only, then return the task.

Focus through the lesson

I do: Align the two scores and track the same beat column. Check chosen access modes.

We do: Listen for copying, compressed rests or rushing. Fade voice before fading the score.

Independent: Keep one individual observation per pupil. Prompt specific listener detail, then let the pupil choose and try the next action.

One end question

What helped you keep your own part, and what changed on the next try?

Give one next step. Respond in the same colour, on the same page or usual mode. Record R only after Voice and Audience are present, one NS is set, and the pupil responds.
