Writing up a fieldwork enquiry

Humanities · LAUNCH · Autumn 2 · Week 7 · HUM-LAUNCH-A2-W07

Staff card

Staff print card

3 November 2026

Invite a response. Give thinking time. The learner may pass.

Arrival regulation check: Green · Ready, Amber · Help, Red · Pause. Say the words as well as showing the colours. Invite a response and allow a pass.

Code	Meaning
VF	Verbal feedback
WS	Worked with support
I	Independent
NS + …	Next step
E	Evidence captured
R	Pupil responded to feedback
//	Self-edit point
?	Read this back to me

At check-out, record E for … against the pupil's target.

Mark R only after the pupil has responded to feedback with an adult.

Return-to-learning route for this lesson: after a pause, rejoin Supported with the enquiry question and one checked tally figure.

Soft instrumental music for transitions if the class plan says so

Sound is off by default.

Pupils edit in the same colour, on the same page.

Made by Matt

P17 · SLT planning and evaluation

Complete a fieldwork enquiry write up.

Stage	Minutes
Arrival including opening	4
Starter	3
I do	6
We do shared investigation	7
We do decision checkpoint	2
You do	12
Review and improve	3
Exit ticket	3

Planned adaptations

Need	Plan
Read or sequence	Use one card and one short instruction.
Communicate	Allow a private point, sign, spoken answer or exact scribing.
Pause and return	Return-to-learning route for this lesson: after a pause, rejoin Supported with the enquiry question and one checked tally figure.
Access the drawing	Use the larger view or describe the marked features.

Catch-up embedded this lesson: revisit category, count and graph labels in Starter before testing a conclusion in We do.

If behind

Keep one model clue, one shared check, the checkpoint, a book response and the exit. Shorten repeated practice.

Staff evaluation

Evidence, adaptation and next teaching move

P18 · Individual target opportunities

Use the learner’s actual agreed target.

Opportunity	Evidence	Actual support
Find a clue	Select a card detail.	_____
Explain	Link evidence to the answer.	_____
Check	Keep or revise one detail.	_____
Regulate	Use a pause or a private response.	_____

The teacher models one step. A second adult, if available, reads a card or records the exact response. With one adult, set out the card and return for the pupil’s reason.

Give time, point to a clue, ask a short question, then offer a frame or choice. Invite a response. The learner may pass.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 7 · HUM-LAUNCH-A2-W07

First lesson back · once-only read

Check what pupils can show from the previous lesson and revisit it within the planned stage.

Use the supplied examples. Invite a response, give thinking time and allow a pass. Use only the learner’s own evidence.

Made by Matt

Teacher answers · Arrival

Arrival · Supported

Point to the picture that matches the top one.

The lower left picture matches the top one.

Arrival · Supported

Which meaning fits settlement?

A place where people live

Arrival · Supported

What should the conclusion refer to?

The enquiry question and actual collected data.

Arrival · Supported

Why include a limitation?

It shows the boundaries of what the method and sample can establish.

Arrival · Independent

Point to the picture that matches the top one.

The lower left picture matches the top one.

Arrival · Independent

Which meaning fits settlement?

A place where people live

Made by Matt

Arrival · Independent

What should the conclusion refer to?

The enquiry question and actual collected data.

Arrival · Independent

Why include a limitation?

It shows the boundaries of what the method and sample can establish.

Arrival · Aspire

Point to the picture that matches the top one.

The lower left picture matches the top one.

Arrival · Aspire

Use settlement in an accurate example.

A settlement is a place where people live. The smaller town centre that Card D compares with the larger centre is part of a settlement.

Arrival · Aspire

What should the conclusion refer to? Which detail supports your answer?

The enquiry question and actual collected data. Card C labels its tally as fictional and says to replace it with your own labelled fieldwork observations.

Arrival · Aspire

Why include a limitation?

It shows the boundaries of what the method and sample can establish.

Made by Matt

Starter

What makes an enquiry question answerable?

It names a manageable area and a feature you can observe.

Starter

Which evidence can support a fieldwork conclusion?

Use the actual tally, map and graph from the enquiry.

Starter

How do you check a fieldwork conclusion?

Use your actual counts and the enquiry question. Name the sampled area and observation round.

Starter

Why include a limitation?

It explains what the method and sample can establish and where the claim stops.

I do · 1

How do you check a fieldwork conclusion?

Use your actual counts and the enquiry question. Name the sampled area and observation round.

I do · 1

Which source helps us begin?

Use card C. Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

Made by Matt

I do · 2

Which detail in the card can help with the question?

Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

I do · 2

What does this clue help us say?

A strong conclusion answers the question with a precise pattern from the evidence, then explains the limits of the sample.

I do · 3

How could I explain the link?

Put the question, location, method, actual data, graph and conclusion together. Keep your own contribution clear.

I do · 3

How can I start my answer?

My question was ____. My data show ____. This supports ____. The limit is ____.

I do · 4

Why include a limitation?

It explains what the method and sample can establish and where the claim stops.

I do · 4

What is one limit to keep in mind?

One observation area or round cannot establish how the whole settlement changes.

Made by Matt

We do

Where does the method go?

Before the findings so the reader knows how the data were collected.

We do

What must the graph and tally agree on?

The categories, counts and units.

We do

What should the conclusion do?

Answer the question using a checked result.

We do

Which clue will you use?

Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

We do

What is one limit?

One observation area or round cannot establish how the whole settlement changes.

We do decision checkpoint

Which choice fits the evidence?

Limit the claim to the sampled street.

Made by Matt

We do decision checkpoint

What evidence helps you decide?

Name the area and method. State what a wider sample would help you check.

Made by Matt

Teacher answers · You do

You do · Supported

Check the detail you used.

Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

You do · Supported

Check your reason or limit.

A strong conclusion answers the question with a precise pattern from the evidence, then explains the limits of the sample. One observation area or round cannot establish how the whole settlement changes.

You do · Independent

Check the detail you used.

Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

You do · Independent

Check your reason or limit.

A strong conclusion answers the question with a precise pattern from the evidence, then explains the limits of the sample. One observation area or round cannot establish how the whole settlement changes.

You do · Aspire

Check the detail you used.

Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

You do · Aspire

Check your reason or limit.

A strong conclusion answers the question with a precise pattern from the evidence, then explains the limits of the sample. One observation area or round cannot establish how the whole settlement changes.

Made by Matt

You do · Choice

Check the detail you used.

Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

You do · Choice

Check your reason or limit.

A strong conclusion answers the question with a precise pattern from the evidence, then explains the limits of the sample. One observation area or round cannot establish how the whole settlement changes.

Made by Matt

Review and improve

Is my detail accurate?

Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

Review and improve

Does my reason follow from the source?

A strong conclusion answers the question with a precise pattern from the evidence, then explains the limits of the sample.

Review and improve

What could I check or change?

One observation area or round cannot establish how the whole settlement changes. Edit in the same colour, on the same page.

Exit · Supported

How do you check a fieldwork conclusion?

Use your actual counts and the enquiry question. Name the sampled area and observation round.

Exit · Supported

Why include a limitation?

It explains what the method and sample can establish and where the claim stops.

Exit · Independent

How do you check a fieldwork conclusion?

Use your actual counts and the enquiry question. Name the sampled area and observation round.

Made by Matt

Exit · Independent

Why include a limitation?

It explains what the method and sample can establish and where the claim stops.

Exit · Aspire

How do you check a fieldwork conclusion? Use one clue.

Use your actual counts and the enquiry question. Name the sampled area and observation round. Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.

Exit · Aspire

Why include a limitation?

It explains what the method and sample can establish and where the claim stops. One observation area or round cannot establish how the whole settlement changes.

Exit · Choice

Point, draw, sign or tell an adult. How do you check a fieldwork conclusion?

Use your actual counts and the enquiry question. Name the sampled area and observation round.

Exit · Choice

Why include a limitation?

It explains what the method and sample can establish and where the claim stops.

TA Brief

Complete a fieldwork enquiry write up.

Arrival regulation check: Green · Ready, Amber · Help, Red · Pause. Say the words as well as showing the colours. Invite a response and allow a pass.

Use the supplied examples. Invite a response, give thinking time and allow a pass. Use only the learner’s own evidence.

Return-to-learning route for this lesson: after a pause, rejoin Supported with the enquiry question and one checked tally figure.

Optional: show one conclusion and actual evidence to an adult. Hear one piece of feedback. Reply with a change, a reason to keep it or a request for help.

Use one route. Record only the pupil’s own response and the support given. Next lesson: Causes of a twentieth-century conflict.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 7 · HUM-LAUNCH-A2-W07

Teaching script · Arrival including opening

Use one Arrival route. Let pupils match the picture before reading the other prompts. Give time to think and allow a pass. Arrival regulation check: Green · Ready, Amber · Help, Red · Pause. Say the words as well as showing the colours. Invite a response and allow a pass.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 7 · HUM-LAUNCH-A2-W07

Teaching script · Starter

Use the drawing to ask: What makes an enquiry question answerable? Which evidence can support a fieldwork conclusion? Catch-up embedded this lesson: revisit category, count and graph labels in Starter before testing a conclusion in We do.

Catch-up embedded this lesson: revisit category, count and graph labels in Starter before testing a conclusion in We do.

Made by Matt

Teaching script · I do

Ask How do you check a fieldwork conclusion? Point to card C. Think aloud: Use your actual counts and the enquiry question. Name the sampled area and observation round. Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion. Check: Why include a limitation? It explains what the method and sample can establish and where the claim stops.

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 7 · HUM-LAUNCH-A2-W07

Teaching script · We do shared investigation

Review a sample conclusion against its data. Check that the report answers the original enquiry. Take a turn to suggest a match, then check the evidence. Ask for a clue. Before the findings so the reader knows how the data were collected.

Made by Matt

Teaching script · We do decision checkpoint

Offer a private choice. Your conclusion describes the whole town from one sampled street. What should you do? Reveal: Limit the claim to the sampled street. Name the area and method. State what a wider sample would help you check. Optional: show one conclusion and actual evidence to an adult. Hear one piece of feedback. Reply with a change, a reason to keep it or a request for help. Mark R only after the pupil has responded to feedback with an adult.

Made by Matt

Teaching script · You do

Select one route. Start in your book. Assemble question, method, location map, actual data, graph and conclusion. Retain the learner’s own conclusion and actual evidence and actual support used. Return-to-learning route for this lesson: after a pause, rejoin Supported with the enquiry question and one checked tally figure.

Made by Matt

Teaching script · Review and improve

Check one evidence detail. A strong conclusion answers the question with a precise pattern from the evidence, then explains the limits of the sample. Ask for one improvement or reason to keep the detail.

Made by Matt

Teaching script · Exit ticket

Use the two exit questions. How do you check a fieldwork conclusion? Why include a limitation? Accept accurate equivalents and plan the next prompt. At check-out, record E for … against the pupil's target.

Explain one idea in your own words.

Check a source. Show what it says about your idea.

What helped you most today, or what would you change next time?

Made by Matt

Humanities · LAUNCH · Autumn 2 · Week 7 · HUM-LAUNCH-A2-W07

Mark scheme

Credit	What to look for
Accurate evidence	Card C gives fictional practice counts. Your report must use your own actual tally for the enquiry conclusion.
Explanation	A strong conclusion answers the question with a precise pattern from the evidence, then explains the limits of the sample.
Limit or check	One observation area or round cannot establish how the whole settlement changes.

Made by Matt
