Tier pack: Supported route — The local canvas: shapes and textures

Pathway: BASE · Week 1 Part 2 · Big question: What bold shapes and rough marks can we spot in big frames?

Supported route studio steps

Step 1: Use a board with two bumpy plates taped down.

Step 2: Rub a flat wax crayon across your page over both plates.

Step 3: Use a wide ruler. Black pen to draw three straight bars.

Step 4: Draw two cross lines to make triangles between the bars.

Success check

Two neat rubbings made with bold black bars on top.

Key words helper

• beam: A long straight bar that holds up a frame.

• arch: A curved shape that goes across a gap.

• rough: Bumpy to touch, not flat or smooth.

Review checklist

[ ] Touch your page. Point to the best rough mark set.

[ ] Check that your black bar lines meet at the corners.

[ ] Show a partner one triangle or arch on your sheet.
