Tier pack: Aspire route — Resolve and finish the relief artwork

Pathway: BASE · Week 6 Part 2 · Big question: How do we add top details and a neat border to finish our relief panel?

Aspire route studio steps

Step 1: Fill in all Layer 3 strong frame corner plates. Bolt dot rows.

Step 2: Deepen the deep joints with dark charcoal. First skimming chrome bright lines on top ridges.

Step 3: Mount the panel on a backing frame with an even margin.

Step 4: Fill in a neat art wall title slip ('Title / Art tools / Maker') for the bottom border.

Success check

Resolved relief panel with deep joint shadows, crisp bright lines, mount,. Title slip.

Make-it studio planner

Pick your final Layer 3 detail, bright line finish, and border frame.

Options: Corner bolt dot rows, Slanted cross-braces, Keystone arch plate, Tower cap beam

Review checklist

[ ] Give your panel a gentle tilt test to make sure no pieces are loose.

[ ] Point to the brightest bright line on your finished frame.

[ ] Place your framed panel safely on the art show shelf.
