Tier pack: Independent route — Analysing a practitioner without copying the page

Pathway: SUMMIT · Week 3 Part 1 · Big question: How do we conduct rigorous visual analysis of a practitioner's work through annotated studies rather than biography copying?

Independent route studio steps

Step 1: Execute a 3-value compositional Tonal map in Box 1 and annotate how contrast directs the viewer's eye.

Step 2: Complete a 6 cm multi-layered Process transcription in Box 2, numbering the exact sequence of media layers.

Step 3: Design an original Personal adaptation in Box 3 applying the practitioner's tonal structure and mark recipe to your identity theme.

Step 4: Write an analytical synthesis comparing the practitioner's visual intent with your own.

Success check

Tonal map, numbered process transcription, original adaptation, and analytical synthesis.

Key words helper

• visual analysis: Examining how an artwork is constructed visually (tone, composition, mark-making) rather than copying biographical facts.

• tonal map: A simplified 3-to-5 value thumbnail that reveals where the artist placed darks, mid-tones, and lights.

• transcription: A focused study of a small section made to reverse-engineer the layer order and tool marks.

• intent: The meaning, mood, or visual impact the practitioner aimed to communicate.

• adaptation: Taking a structural or technical principle from a study and re-inventing it for your own subject.

Review checklist

[ ] Check that your page has zero biographical filler and 100% visual/technical analysis.

[ ] Verify that arrows or numbered notes clearly link Box 1 (Tone), Box 2 (Process), and Box 3 (Your adaptation).

[ ] Add your practitioner sheet to your studio portfolio.
