Muscle Pairs · Tier Pack · Independent

Learning goal: I can find a pair of arm muscles and show which muscle pulls to bend or make the arm straight.

Independent Route (Book First)

Label the top and back muscles for a bent arm and a straight arm. Write one because sentence.

Help: When the arm bends, the __ muscle pulls and the __ muscle rests because __.

Optional Make It · Independent

Make a 2-flap arm card

Fold a card in half. Draw the bent arm on Flap 1 and the straight arm on Flap 2. Label Pulls and Rests. Keep your book sentence too.

Word Help

muscle: a body part that pulls on a bone to make it move

joint: a place where two bones meet and bend

pull: when a muscle gets short and tight to move a bone

relax: when a muscle goes soft and long

Exit Check

Point to the muscle that pulls when your arm bends up: top or back?

What does the partner muscle do while one muscle

pulls?
