Food Sources · Pupil Resources

Learning goal: I can say if a food comes from a plant or an animal and group animals by what they eat.

Arrival Questions (In your book)

1. Does wheat come from a plant or an animal?
2. Does cow's milk come from a plant or an animal?
3. What does a rabbit eat?
4. Can you ask an adult to help?

Starter Question

Why is 'the supermarket' not the scientific source of bread?

A. The shop only sells it; the wheat grain grew on a plant in a field.

B. Because bread grows on shop shelves.

C. Because bread has no source.

Method Strip

1. Put the Plant Source and Animal Source mats on your desk.
2. Trace each food card back to its living source and place it on the mat. STOP AND CHECK.
3. Turn over to the Herbivore, Carnivore, and Omnivore mats.
4. Read the food clues on each animal card and place it in the right diet group.
5. Record two food sources and three animal diets in

your book.

Exit Ticket

Does potato come from a plant or an animal?

Name one animal that eats only plants (herbivore).

How can you tell if an animal is an omnivore?
