RE learns about beliefs, change and resilience; this activity is not worship

Teacher and cover plan

1. Lesson outcome. GROW-RE-S1-W02; Beliefs, change and resilience. Outcome: Investigate ideas of suffering and hope in a faith. To be able to explain how one faith account links hardship and hope. Success today: I can… I can identify an idea of hope in the source. I can explain a possible caring response. I can avoid a promise that all pain will stop.
2. Arrival 1–4. 5 min · KEEP. Use one tier: three prior checks and the link. Keep four first responses; recap only after first try. TA: Help locate the tier, start within two minutes, then record actual source access; offer pointing before speech. Avoid: Do not answer the four questions or show recall before the first attempt. VF: “You have made a first attempt. I will note what you knew and what help you used.”
3. Starter. 3 min. Question: Does “I hope this improves” mean “I know it will improve”? In your book: One brief choice or response. TA: Read the one question and allow quiet thinking. Avoid: Do not supply the pupil’s response. VF: “I heard your choice. Tell or show me the part that led you to it.”
4. I Do. 6 min · KEEP. Use the complete I Do method model and its named source. Record one useful model step or word; no board copying. Hide the model before the own task. TA: Support attention to the current source and model step. Avoid: Do not give a parallel explanation or count copied model words as independent evidence. VF: “This is the model. Your later response will show how you use the method.”
5. We Do. 8 min · KEEP. Use the We Do source and prompt. Keep one guided example and the pupil’s own contribution before revealing the shared check. TA: Prompt a contribution and a record, then fade after the first success. Avoid: Do not complete the guided response for the pupil. VF: “You chose that detail. Check its link to the task; keep it or change it in your own way.”
6. You Do. 15 min · KEEP. Use the chosen source-based route. Keep the pupil’s response and review within the allocated You Do time; exact route and answer guidance are in Staff_Answers.pdf. TA: Use the held ladder only as needed, record help, then return to independence. Avoid: Do not give content answers, improve the pupil’s baseline or label prompted work independent. VF: “This detail supports your claim. Your next step is to check one link; show me your own edit or reason to keep it.”
7. Support routes. Independent first; Supported then Choice as needed; Aspire is separate. Staff record actual I/S/C and exact prompts; leave the pupil’s box empty.
8. Adaptations / normal ways of working. Short chunks; dual-coded vocabulary mat; reduced-source load; sentence stems/graphic organiser; one model before independence; reader/scribe/overlay/processing time. One faith source and one separate invented case; belief/action/known-outcome boxes; no loss disclosure. Space: private response and opt-out; return to one card and the first unfinished step. Planned regulation/movement break; return to the first unfinished source step. No cold calling; nobody is asked to read difficult text aloud.
9. TA focus. Designated evidence adult: lesson TA; teacher captures if no TA is assigned. Record actual source access and prompting; never improve the baseline or mark prompted work independent. Held prompt ladder: page 2.
10. Exit 1–3. 3 min · KEEP. Use one tier and the whole fresh source: both unaltered checks, confidence 1–3 and separate adult prompt record. No other help; use responses for the next lesson. TA: Ensure access and an attempt or recorded pass; preserve the response. Avoid: Do not hint, change an answer or treat confidence as proof of learning. VF: “I have kept your answer as you gave it. It will help choose our next step.”
11. After teaching. Misconception: _____ Response: _____ Next step: _____ Evaluation: _____
12. Preparation / evidence / cover essentials. PPT; complete A/C source cards, word cards, blank record, selected route and Pause card. Educational RE, not worship; optional reflection and neutral case. No personal belief/loss disclosure, sacred originals, real flame or role-play. Keep recall covered until first try; model hidden for the own task and all help closed at Exit. Answers: Staff_Answers.pdf. TA captures the exact response, route and help; teacher receives it fully, names the change back and chooses the next step. Teacher captures if no TA. TA checks and uploads to the evidence app that day, 14:10–14:30. Record actual influence; R requires receipt and influence. KEEP: Keep the faith-source idea, caring application, limit and two Exit checks. Shorten optional Aspire before the essential task. Six-stage timeline (minutes): 00–05; 05–08; 08–14; 14–22; 22–37; 37–40.

Key answers and adult prompt ladder

Arrival key answers. Supported: 1. A possible response or action.; 2. Ask what is needed, check a safe task, seek help or make a new plan.; 3. No; different people can make the same choice.; 4. Yes; accept a sensible prior idea without asking about personal hardship. Standard: 1. A belief/value can give a reason for choosing a response.; 2. Check needs, seek safe help, plan a repair only when safe or choose a new plan.; 3. The case did not state a belief and more than one worldview can support care.; 4. Hope is a wish or trust in possible good, not evidence that the difficulty is over. Stretch: 1. E.g. source B's reason/care supports checking facts and needs; A's hope/care can support asking what help is needed.; 2. A safe plan offers an action within the group's control, while not promising the whole problem is solved.; 3. A stated view or other direct evidence; never infer it from the act or appearance.; 4. Hope concerns what may be possible; a known outcome needs evidence.

Exit Ticket key answers. Supported: 1. Hope linked to Christian belief in new life/rising from death.; 2. Seeking a safe space or checking needs fits its call to kindness/care. Standard: 1. The account links belief in new life with renewed hope.; 2. Hope does not remove the practical need, and the source calls for care. Stretch: 1. A clear link between the source belief/hope and caring action in the case.; 2. It offers a belief-based reason for hope, not proof that the room/problem is resolved.

Answer reference. Staff_Answers.pdf: Arrival and Exit by tier, then guided and route answers. Check the accepted source before accepting equivalent answers.

Prompt ladder for adults. 1. Point to the relevant place / instruction. 2. Ask one short question: "What is it asking you to find?" 3. Rephrase the instruction in simpler language. 4. Provide a scaffold or limited choice. 5. Model the first step only, then return the task to the pupil.
