RE learns about beliefs, change and resilience; this activity is not worship

STAFF ANSWERS

Arrival · Supported

1. Christian belief in the central teacher rising from death/new life.
2. Spring.
3. No.
4. Hear it fairly, state a reason, question the claim without insulting a person; accept a sensible prior idea.

Arrival · Standard

1. Christian belief that the central teacher rose from death/new life.
2. The source says Holi welcomes spring and celebrates good overcoming evil.
3. They share a possible renewal theme but have different sources, beliefs and practices.
4. Hear or read it fairly, state a reason, and challenge the claim without an insult.

Arrival · Stretch

1. In this Christian account, belief in the central teacher's rising from death is linked to hope; do not universalise.
2. Holi welcomes spring; the source also describes good overcoming evil and colour in some celebrations.
3. A theme such as a new start can appear in distinct accounts without making their beliefs identical.
4. A reasoned challenge tests an idea; attacking a person does not address its evidence or meaning.

Exit · Supported

1. A reply with a case-linked reason, e.g. hope can prompt checking but a safe space is not yet known.
2. A respectful question about the offered check, such as asking whether the space is safe or what the helper needs to find out. It addresses the proposal without judging a personal belief.

Exit · Standard

1. A supported answer linking hope/action/facts, with no promise of success.
2. A fair paraphrase and reasoned response to one of the supplied positions.

RE learns about beliefs, change and resilience; this activity is not worship

STAFF ANSWERS · continued

Exit · Stretch

1. A qualified, evidence-linked view with a condition or limit.

2. Check facts and reasons in the case; the case does not identify beliefs and gives no basis for ranking them.

Starter

Answer (adult): Yes. A reasoned challenge addresses a claim, while an insult attacks the person.

We Do

Answer (adult): A pupil may acknowledge time while explaining safety/checking as a reason. Accept a qualified answer with a reason. This is procedural practice on an invented neutral question, not supplied assessment content.

You do routes

Route guidance: Summative strands: a clear viewpoint about change; a source detail and case-linked reason; a limit/condition; a fair response to another view; and a pupil-owned response to one NS. Use a brief verbal/source-choice check to authenticate the pupil's reasoning and record adjustments. Accept yes/no/depends when justified. Assess reasoning and respect, never personal faith, agreement or confidence. Record secure/partial/not yet by strand, not a fabricated score or award result.

Supported and Choice retain the same essential outcome. Record only pupil-selected content. A word/phrase may show the reason; an adult-selected answer does not. Aspire is not automatic independent evidence. An accurate alternative judgement with evidence may be accepted where the question permits it.

Review evidence: keep the original response and the pupil's own edit or stated reason to retain it. Use R only after the adult receives it, names the change back and records its effect on the next step. The evidence artefact is defended big-question paragraph or equivalent response with one NS and pupil-owned revision.
