RE and Worldviews · LAUNCH · Spring 1 · Week 4 · LAUNCH-RE-S1-W04 · Date _____

How can belief support resilience without promising an easy outcome?

Today I can… ☐ link a source belief to a possible response and explain why hope is not a guarantee.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R ☐ [//] ☐ [?] _____

RE learns about ethics and worldviews; this activity is not worship. Reflection is optional and never worship.

TA brief

Adult support

Arrival: TA action — Help locate the first question and begin within about two minutes. Avoid — Do not answer the four questions or reveal recall before the first attempt. Feedback script — “I have received your first attempt; we can now check one idea.”

Starter: TA action — Read the single question once and allow private thinking. Avoid — Do not provide the response or turn this into a second retrieval grid. Feedback script — “Tell or show me the reason for your choice.”

I Do: TA action — Support attention to the one chunk and point to its source. Avoid — Do not give a parallel explanation or require copying from the board. Feedback script — “Notice how the model links a source detail to a claim.”

We Do: TA action — Prompt one contribution and an exact pupil-owned record. Avoid — Do not complete the guided response for the pupil. Feedback script — “Your detail is recorded; now explain what it supports.”

You Do: TA action — Offer the independent attempt first, then use the held ladder and record actual support. Avoid — Do not give a content answer or leave a complete model visible throughout the attempt. Feedback script — “Against the criterion, one next step is to make this link precise; you choose the revision.”

Exit Ticket: TA action — Ensure an attempt in the chosen mode and record actual prompting. Avoid — Never change an answer or supply a clue, answer stem, Word help or organiser during the checks. Feedback script — “I have received your answer as given; it will help choose the next teaching step.”

Baseline and prompting: record the level of support, not just success. Independent = no content prompt; With prompt = stem/choice/reminder used; Not yet = adult supplied most of the content. Never improve an answer so it no longer shows the baseline or mark a prompted response as independent. Staff record actual I, S or C beside the task in the private record; pupil route pages retain only the empty labelled box.

LOOP · Arrival — Space: private response, pass or short break with return to this stage’s next numbered step. Capture: designated classroom-support adult records private first-attempt responses to the four questions with actual response mode and prompt. Feedback: one accurate idea and one point to check after the baseline. Voice: the pupil keeps the original and gives or directs a correction. Audience: the lead teacher receives the full response and names the actual change back. Planned Influence: choose whether the short prerequisite/previous-lesson recap is needed before new input. Record actual receipt and influence after teaching; R only after both, never for capture alone or a pass.

How can belief support resilience without promising an easy outcome?

Today I can… □ link a source belief to a possible response and explain why hope is not a guarantee.

LOOP · Starter — Space: private response, pass or short break with return to this stage's next numbered step. Capture: designated classroom-support adult records the single choice and its reason with actual response mode and prompt. Feedback: a brief question about how the choice fits the example. Voice: the pupil confirms or revises the reason in the chosen mode. Audience: the lead teacher receives the full response and names the actual change back. Planned Influence: adjust the first model explanation to the misconception actually heard. Record actual receipt and influence after teaching; R only after both, never for capture alone or a pass.

LOOP · I Do — Space: private response, pass or short break with return to this stage's next numbered step. Capture: designated classroom-support adult records the pupil-selected useful model link or vocabulary note with actual response mode and prompt. Feedback: one precise comment about the link between detail and claim. Voice: the pupil points to or explains that link without copying the whole model. Audience: the lead teacher receives the full response and names the actual change back. Planned Influence: adjust the first guided question or source chunk before We Do. Record actual receipt and influence after teaching; R only after both, never for capture alone or a pass.

LOOP · We Do — Space: private response, pass or short break with return to this stage's next numbered step. Capture: designated classroom-support adult records one guided example and the pupil-owned explanation with actual response mode and prompt. Feedback: one criterion-linked prompt about what the selected detail supports. Voice: the pupil supplies or directs an explanation or correction. Audience: the lead teacher receives the full response and names the actual change back. Planned Influence: choose the least support needed for the initial independent attempt. Record actual receipt and influence after teaching; R only after both, never for capture alone or a pass.

LOOP · You Do — Space: private response, pass or short break with return to this stage's next numbered step. Capture: designated classroom-support adult records the source-based response and its visible pupil-owned review with actual response mode and prompt. Feedback: one brief criterion-referenced next step after the initial response is recorded. Voice: the pupil revises, explains a reason to retain wording, or opts out. Audience: the lead teacher receives the full response and names the actual change back. Planned Influence: choose the next taught recap, source or support adjustment from the received response. Record actual receipt and influence after teaching; R only after both, never for capture alone or a pass.

LOOP · Exit Ticket — Space: private response, pass or short break with return to this stage's next numbered step. Capture: designated classroom-support adult records both unaltered fresh-source checks and the separate prompt record with actual response mode and prompt. Feedback: receipt only during the check; one specific next step after collection. Voice: the pupil submits the response or passes; any later response stays separate. Audience: the lead teacher receives the full response and names the actual change back. Planned Influence: plan the next taught recap from the actual answers without changing this baseline. Record actual receipt and influence after teaching; R only after both, never for capture alone or a pass.

Adult-only EHCP note: use only an agreed relevant individual outcome. Possible opportunities are selecting source evidence, communicating a choice/reason, using an agreed pause and return, or accessing a record through an agreed mode. These are opportunities, not diagnoses or assumed progress. Record only what was observed. No pupil identities, initials or filled personal fields appear in this material.

LAUNCH response window: use a brief criteria-referenced NS on extended work and allow the final three minutes of You Do for a pupil-owned response. If regulation/time prevents a response, reserve the first 10–15 minutes of the next taught session before new input; record this as pending, not R. On the final week, the lead teacher schedules that first response window in the next taught session without inventing its lesson content. No complete assessment answer is revealed during the initial attempt.

Same-day evidence — LAUNCH-RE-S1-W04: the designated classroom-support adult captures a source-linked hope/resilience explanation with a practical plan and a pupil-owned limit as a work-only photograph or one-line note, with response mode, chosen route, actual I/S/C and exact prompt; checks it before tagging and uploads to the evidence app the same day during the check-out slot, 14:10–14:30. Audience: the lead teacher receives the pupil's full response, listens/looks and names the specific change back. Influence: choose the next source, recap or support adjustment from that response, and record the actual change after teaching. R is earned only after receipt and influence; capture alone, refusal or a response nobody received never earns R.

Weekly evidence plan: subject lead samples weekly. LAUNCH minimum is three pieces per week plus weekly preparation-for-adulthood evidence across the timetable, not a fabricated per-lesson quota. Record a pass or opt-out as Space evidence in Evaluation, never failure or R. Space → Feedback → Voice → Audience → Influence is planned; no actual loop is claimed before teaching.

STAFF PRODUCTION CONTRACT: six stages Arrival → Starter → I Do → We Do → You Do → Exit Ticket. Opening 0 minutes; stage minutes 5/3/6/8/15/3 = 40. Use all four cue meanings: instruction yellow #FFF1BB; scaffold blue #E4EFF9; stretch/Aspire green #E4F2E6; success criteria orange #FFE4C8. Cue colours show instructional roles, not religions or worldviews. Repeat the exact educational/non-devotional line printed below on every pupil page, including every route, tier and continuation page. Topic tints and any picture colours are declared separately at build. Every slide repeats the exact objective below in its footer and carries its stage minutes; the opening carries 40 minutes. Leave source-page hash, version and QR slots empty for intake. Pupil print type is at least 14 pt; short chunks, clear spacing and overlay-safe layout. No board copying. No image is required for these text-source tasks.

STAFF CARE: Preview sources and preserve their attribution. No cold calling; nobody is asked to read difficult text aloud. Model some believers / this person and diversity within traditions; never rank beliefs. Use only replicas, protected teaching descriptions or photographs rather than authentic sacred objects. Before use say: handle teaching resources respectfully; a book, object or place is not the whole religion. No real flame; offer drawing/colouring. No personal object, belief, family/community experience, hardship or bereavement disclosure. No enactment of harm and no compelled apology, forgiveness, reconciliation or meeting. Reflection is optional and never worship. Offer pointing first, two or three choices, a word/symbol bank, drawing, scribed/verbal/witness-note evidence, a one-word or symbol response, private pass and quiet space. Accept depends with a reason. A neutral community case response remains available; record when it does not supply a source-comparison criterion rather than inventing attainment. Return after a short break to step 1 on the current source task. No pupil handling of objects or practical re-enactment is required for this lesson.

STAFF RESOURCE RELEASE: keep the new Word help and source strips covered during the first Arrival attempt. Release each source only for its named model, guided or independent stage; the W6 assessment strips stay covered until You Do. Cover complete model and guided answer before the independent attempt.

Prompt ladder for adults

1. Point to the relevant place / instruction.
2. Ask one short question: "What is it asking you to find?"
3. Rephrase the instruction in simpler language.
4. Provide a scaffold or limited choice.
5. Model the first step only, then return the task to the pupil.
