Staff answers and response guide

My trusted adult network

These are possible responses and task guides, not learner observations. Accept a defensible answer based on the facts or actual work. Record each learner's reasoning and support.

Card key

Card	Judgement or step	Possible action
A	Helps. The adult listens.	Ask for help in a quiet place.
B	Warning. The adult asks for a harmful secret.	Tell another trusted adult.
C	Backup. Another adult is available.	Ask that staff member for help.
D	Helps. They explain a safety step.	Ask what will happen next.
E	Warning. The person and purpose are not known.	Do not share it. Ask a trusted adult.
F	Backup. Staff can help find a safe route.	Ask staff to identify an available adult.

Model and hinge

Sam picks a school adult who listens. Sam can ask at the school office. A club leader is another option. If one adult is away, Sam asks another. A trusted adult takes concerns seriously. They may share a concern to get safe help.

B. A backup adult gives another route to help. A leaves Sam without support; C shares private information with unknown people. Ask how Sam could reach the backup. Reteach using a school adult who is busy, then a different available staff member.

Individual evidence key

Accept accessible adult roles and a workable way to reach them, with a reason based on listening, boundaries and helpful action. A role alone does not guarantee trust. A fictional map shows the mapping skill; do not label it a confirmed personal network. Staff check a real help route privately without demanding names or personal histories.

Feedback boundaries and next teaching

Card A: Listening and appropriate action matter more than a job title or friendly manner.

Card B: Do not role-play this as an adult threat. Keep the example brief; no disclosure is required.

Card C: Staff identify the real available route privately before teaching.

Card D: Do not promise total secrecy. Follow the setting safeguarding procedure.

Card E: A friendly message is not proof of trust. Do not open a live account in class.

Card F: No pupil is required to invent a supportive family member. Check a real route privately.

Common misunderstandings

A trusted adult is not simply any adult, a relative or someone friendly. Asking another person is allowed if the first is unavailable or unhelpful. Private does not mean a promise that a safety concern will never be shared.

Teaching boundary

Use Sam or role labels. Do not display or collect addresses, phone numbers, family histories or personal network names in a public pack. Offer a private alternative and a pass. If a concern is shared, listen without investigating, follow local safeguarding procedures and keep that record separate from learning evidence.

Feedback

If a reason is missing, return to the fact or actual work. Re-model a different example, then keep the learner's own revision. Use NS+ and the learner response, in the same colour, on the same page or usual mode, before R. E means evidence actually banked. Keep safeguarding records separate.

Assessment boundary

GROW-PSHE-W3-E1 contributes to the source assessment. No criterion, registration or award completion is invented. Sources: FACTS_LEDGER.md.
