

Knowledge Organiser (LAUNCH W7): Source-based assessment

Humanities Aut 1 · 2026–27 · Workbook outcome: Source-based assessment.

Key Word	Definition
Modelled:	Modelled: criterion two. I find a quotation and look for its origin. There is none. Error found. Smallest repair: eight words naming who wrote it and when. The paragraph does not need rewriting.
Ranked together:	Ranked together: the missing origin is cheap. The missing judgement is expensive, because nothing in the answer can be reused to build it.

Key Facts

- Four criteria: point stated, evidence quoted with origin, evidence explained, judgement reached.
- Explaining means saying what the evidence shows, not repeating it in other words.

Arrival Task

Retrieving what the criteria ask

1) Four criteria: point stated, evidence quoted with origin, evidence explained, judgement reached.

2) Explaining means saying what the evidence shows, not repeating it in other words.

A marked answer with four errors in it

One answer, marked as though it met every criterion.Marker note: “All four met. Full marks.”Your job: the note is wrong. Four criteria are unmet, and each one is visible on the page.

We Do 1: Spot the error: four of them are planted

Paragraph 1: which criterion does it miss, and what is the smallest repair?

The quotation in paragraph 2: what is missing before it can count?

The final paragraph: is that a judgement, or a summary?

We Do 2: Which error costs most to repair?

Everyone writes a ranking on a whiteboard, then we hold them up at the same time.

Scaffolding – Stretch

Word Bank

Modelled:, Ranked together:, Space, Voice, Audience, Influence

Your route

Your answer, all four with repairs, ranked by cost, and the one you would fix first in your own paper.

Sentence frames

"Who ... what they do ... so that ..." | "... because ..."

Reference Zone — keep this beside your work

The model

Modelled: criterion two. I find a quotation and look for its origin. There is none. Error found. Smallest repair: eight words naming who wrote it and when. The paragraph does not need rewriting.

Ranked together: the missing origin is cheap. The missing judgement is expensive, because nothing in the answer can be reused to build it.

Check yourself

- Check yourself: is every repair the smallest one that would meet the criterion?
- Check yourself: did you check your own answer against the same four criteria?

From the lesson sheet

Source-based assessment

SoW: 'LAUNCH Weekly - Autumn'!C52 — "Source-based assessment."

Learning objective: I can answer a source-based question against the four criteria, find the errors in a marked answer, and give the smallest repair for each.

The marked answer is written for this lesson and is nobody work. No learner script is shown or marked by another learner.

Marking record

Error → criterion → smallest repair → cost.

The first row is done for you, from the error we found together. It is in italics so you know it is not yours.

Independent Work – Stretch

All four with repairs, ranked by cost, and your own first fix.

Your answer, all four with repairs, ranked by cost, and the one you would fix first in your own paper.

Where	Criterion unmet	Smallest repair	Cost
<i>paragraph 2, the quotation</i>	<i>2, origin quoted</i>	<i>name the writer and the year</i>	<i>cheap</i>

Choose a route

- 1. I chose my own route.
- 2. My marking is in my own words.
- 3. Any adult help is written on the record.

5 · Learner confirmation

I confirm this is my own work.

Exit Ticket – Stretch

1) Read one of your marks to a partner. They say back which criterion you meant.

2) Did they name a different criterion? Change the wording of your mark. That change is your influence.

3) SPACE stays available, VOICE is received, AUDIENCE names back exactly and INFLUENCE changes one real next action.
