Teacher and cover planner

Options after school

Tuesday 12 January 2027 · P3 · 40 minutes · Year A

Careers · BUILD · up to five learners · Spring 1 Week 2 · formative

Theme: Resilience & Change. Six-week term. Week 6 assessing; source Week 5 keeps its mixed evidence role.

Thread tags: SMSC S/So (M/C: none); British Values IL/MR (D/RL/T: none).

Weekly outcome

Students recognise the main post-16 routes available.

Exact lesson outcome

I can name at least three next-step options: college/sixth form, apprenticeship/training and employment with training/support.

Focus: What can I do after school?

Source: BUILD Careers physical row 17 / Spring 1 row 2. E17 weekly outcome, F17 focus, G17 lesson outcome, H17 sequence, I17 timing and J17 evidence.

What this lesson teaches

Name three broad groups of next-step options. College and sixth form sit in the first group. Apprenticeship and training sit in the second; not every training course is a paid job. The third is employment with training/support. Groups may overlap in real life. This is an introduction, not an entry or eligibility decision.

Success checks

Identify all three groups using words, cards or a usual communication aid. Link examples to the type of route and sort the information shown as learn, earn or both. Notice when learning or support information is missing.

Prepare

Books, pens, option and example cards, Vocabulary Mat and evidence record. Adult may cut reusable cards beforehand. No write-on pupil worksheet needed. Confirm a trusted adult, private help route and supported pause/return. No internet, login or phone.

Where this leads

This helps me name options after school and ask what I need to find out next.

Forty minute sequence

Phase	Min	Teaching
Arrival and retrieval	5	Recall that careers can change and learning or help can support a next step.
I Do	8	Pre-teach route words; explain three options with icons and model A.
We Do	10	Sort C and D; discuss F, then check the difference between pay and learning.
You Do	12	Name all three option groups in a post-16 options grid; sort B and E; optional private choice check.
Review and exit	5	Check three different groups, one NS and reply; bank the options grid in Careers Portfolio.

5 + 8 + 10 + 12 + 5 = 40 minutes, following I17. Processing time and brief pauses are included. Slides 7 and 8 share the 23–35-minute task window.

Arrival and I Do

0–5: choose learning a skill or asking for help as a useful response when a work plan changes. Supply the Week 1 idea if absent. 5–9: read the exact outcome and pre-teach option, learn, earn and both. 9–13: show all three route icons and explain the names. FE means further education after school; a college can offer it. A sixth form offers courses after school. An independent training provider is a type of organisation that teaches job skills; it is not a separate fourth group. Model A: option 1, learn, because the card describes study and no paid job.

We Do

13–19: compare C apprenticeship, both, with D training course, learn. Both belong to option 2; a paid apprenticeship is different from a course without a paid job. Discuss F: earn is all the card tells us; the next question is what learning or support comes with it. Do not present F as a complete recommended route. 19–23: private hinge, feedback and parallel check if needed.

You Do

23–35: whole grid or one row at a time. Both name all three groups and match B and E. For reduced choices offer 1/2 for B, 2/3 for E, then ask for the unused group 2 from 1/2. Return all three cards to check different groups. Log all choices and supplied labels. Optional personal choice check: which option would you like to find out more about? Not sure, pass or choosing for a made-up person are equally valid. No reason or personal history is required.

Review and exit

35–38: privately check three different groups, give one NS and retain the reply. 38–40: name or point to all three groups, or correct a missing/duplicate group. Keep the actual post-16 options grid in Careers Portfolio. A preference is not a commitment or part of the attainment judgement.

Access and checks

Supported

Keep all three option cards and the word bank. Read one short section at a time. Offer two labels per choice, then return the full set. Point, sign, type or use an exact scribe. Record labels supplied or answers modelled.

Independent

Name all three option groups in the grid with normal reading and communication aids. Match B and E and give a clue from each. Use the cards to check.

Aspire

Explain why C and D share option 2 but have different pay information. Give a useful question about F. Extra writing and public sharing are not required.

Model check and fade

After model A, ask privately: A learn or B both? Key A; the card shows study and no paid job. If unsure, point to the exact clue and model again. Keep the word bank, names and icons; fade only answer cues. Do not remove normal communication access.

Hinge and parallel check

Main: does every training course include a paid job? A yes; B no, check the course details. Key B. If unclear, compare C with D and repeat the distinction. Parallel: C has a paid job and planned learning. A both; B earn only. Key A. Pass is unobserved. Record the actual response and recheck privately.

Adaptations and prompt ladder

Cognition and Learning: three labelled icons, short examples, model and two-choice route. Communication and Interaction: pre-teach words, one instruction, processing time, frames and usual aid. SEMH: calm stages, pass, supported pause/return, no public questioning. Sensory and Physical: clear text and pictures, no colour-only codes, pointing instead of moving cards. EAL: plan in any language; explain route words before using abbreviations.

Prompt ladder: 1 point to place/instruction; 2 ask a short question; 3 rephrase; 4 give scaffold/choice; 5 model the first step only, then return the task. In I Do point to learning and work clues; in We Do prompt the wording; in You Do record actual help without silently completing the grid.

Private help route

Use a trusted adult or the school’s help route. Point to HELP, write a request or ask for a private talk. Pass, pause and supported return are available. If one adult is busy, seek another through the route. No personal finances, family jobs or public future-plan statements requested.

Evidence and staff guidance

Typed and scribed routes

Either task can use Evidence Sheet page 2, Type instead, with blank option and example fields. Save through the usual routine with lesson code and work reference; show an adult privately. Scribe exact words or selections, read back and allow correction. Separate usual access from supplied answers.

Evidence and judgement

Exact source evidence: Post-16 options grid. Keep three option names/selections, B and E matches, learn/earn/both decisions, first response, access, answer prompts, one NS and reply. Secure core evidence identifies all three groups; do not count college and sixth form as two separate groups while omitting another. Accept accessible equivalent words that retain the route distinction, including learning/support with employment. Record naming separately from example sorting. A pass is unobserved; retain partial evidence. An optional preference is never marked right or wrong.

Misconceptions and feedback

A paid apprenticeship includes planned learning; not all training courses include pay. A paid job card with no learning/support information is incomplete, not proof that support is absent. College, sixth form and training routes vary; they are not ranked by ability or worth. Real routes can overlap. Do not treat a tentative choice as fixed.

Give one NS, such as add the third group or explain why C is both. VF verbal feedback; WS worked with support; I independent; // self-edit; ? read back; E actual banked evidence. R follows Voice, Audience, NS and a reply in the same colour, on the same page or usual mode. Offer to the Communication portfolio. Staff confirm any accredited mapping.

Invented examples and safe scope

All example people and route descriptions are invented, simplified and generic. Icons show learning or work, not real places or portraits. No named college, provider, employer, place, product or platform. No claims about actual availability, fees, pay amounts, eligibility or entry grades. Staff check age, entry and ongoing learning requirements through the usual advice route before a real decision. Listen calmly to concerns, avoid probing or secrecy promises and follow normal procedures.

Source and sequence

H17 local examples are replaced by invented unnamed examples under the owner’s rule. Its learn/earn/both sort, accessible route explanation and private choice check are retained. K17 website suggestions are replaced by in-pack cards. Next BUILD Careers Weeks 3–6, one per return; then the previously queued LAUNCH Careers Week 1. GROW Careers remains paused. Only this Week 2 authored; pause for Downloaded.
