Apprenticeships earn and learn

Tuesday 19 January 2027 · P3 · 40 minutes · Year A

Careers · BUILD · up to five learners · Spring 1 Week 3 · formative

Theme: Resilience & Change. Six-week term. Week 6 assessing; source Week 5 retains its mixed evidence role.

Thread tags: SMSC S/So (M/C: none); British Values IL/MR (D/RL/T: none).

Weekly outcome

Students understand the basic features of an apprenticeship.

Exact lesson outcome

I can explain that an apprenticeship combines paid work with training and identify one thing I would need to apply.

Focus: Apprenticeships — earn and learn

Source: BUILD Careers physical row 18 / Spring 1 row 3. E18 weekly outcome, F18 focus, G18 lesson outcome, H18 sequence, I18 timing and J18 evidence.

What this lesson teaches

An apprenticeship combines paid work with training. Learners read an invented profile, label its features and identify one application need. The examples are generic trades, not real vacancies. Entry skills and application tasks are invented for this activity, not universal rules or a judgement about any learner’s eligibility.

Success checks

Explain earn and learn as paid work plus training. Identify pay, training, employer and entry need on the chosen profile. Name one relevant thing needed to apply and point to its source. Record explanation and application need separately.

Prepare

Books, pens, profiles, Vocabulary Mat and evidence record. Adult may cut reusable cards before teaching. All work is reading, matching and explaining; no tools, food handling or practical trade work. Confirm private help and a supported pause/return. No internet, login or phone.

Where this leads

This helps me understand an apprenticeship and ask what I need before I apply.

Forty minute sequence

Phase	Min	Teaching
Arrival and retrieval	5	Recall learn and earn from Week 2 with picture choices.
I Do	8	Pre-teach words; explain paid work plus training and model profile A.
We Do	10	Label profile A; compare entry needs and check a myth and hinge privately.
You Do	12	Choose B or C; make an apprenticeship fact card with pay, training, employer, entry need and one application need.
Review and exit	5	Check earn and learn plus an application need; one NS and reply; bank fact card in Careers Portfolio.

5 + 8 + 10 + 12 + 5 = 40 minutes, following I18. Processing time and brief pauses are included. Slides 7 and 8 share the 23–35-minute task window.

Arrival and I Do

0–5: recall learn and earn using pay and training pictures. Either pointing or words are valid. Supply the Week 2 idea if absent. 5–9: read the exact outcome and teach apprentice, pay, training, employer, entry need and apply. 9–13: model A. Identify pay for checking/mending bikes and planned lessons/practice. Explain both together: paid work plus training. Point to the small repair workshop as employer and reading a safety note as the practice entry need. Model an application need using the exact profile.

We Do

13–19: label A with pay, training, employer and entry need. Read one field at a time. Compare A reading a note with B measuring a length: requirements in the practice cards differ. Model finding the To apply field. 19–23: myth/fact check and private hinge. Correct no-training claims; re-model if needed and use the parallel check.

You Do

23–35: choose B woodwork or C food making, or let an adult offer a neutral choice for a made-up person. In a book, type or use usual aid/scribe to make a fact card. Record sector, pay, training, employer and entry need. Explain paid work plus training and name one thing needed to apply from Entry need or To apply. Both choices use the same checks; no learner has to say this is a future career plan.

Review and exit

35–38: privately check explanation and application need; give one NS and retain the reply. 38–40: say or show paid work plus training and one requirement from the chosen profile. Add the actual fact card to Careers Portfolio. No public retelling or personal qualification disclosure.

Access and checks

Supported

Read one profile field at a time. Keep the pictures, model, word bank and sentence starts. Offer two labels or two details to choose from. Point, sign, type or use an exact scribe. Log supplied labels and modelled answers.

Independent

Choose B or C. Label pay, training, employer and entry need; explain paid work plus training and identify one thing needed to apply. Keep normal reading and communication aids.

Aspire

Compare the chosen profile with A. Explain why entry needs may differ and give one question to check before a real application. No extra writing or public presentation required.

Model check and fade

After A, choose which pair describes the apprenticeship: A paid work and training; B paid work only. Key A. If unclear, point to A's Pay and Training fields and model both. Keep icons, the full example, words and frames. Fade answer cues only; usual aids stay available.

Hinge and parallel check

Main: an apprentice has A paid work only; B paid work and training. Key B. If unclear, read the two fields together and recheck privately. Parallel: which card fits earn and learn? A a paid job with planned lessons; B a course with no paid job. Key A. A pass is unobserved. Myth/fact keys are Fact, Myth, Myth; require a clue where possible.

Adaptations and prompt ladder

Cognition and Learning: short labelled profile, clear icons, model and two-choice scaffolds. Communication and Interaction: pre-teach words, one instruction, processing time, frames and usual aid. SEMH: calm predictable tasks, pass, supported pause/return; no cold calling. Sensory and Physical: large clear pictures/text, pointing instead of moving cards, no colour-only codes. EAL: plan in any language; explain route words before asking for them.

Prompt ladder: 1 point to place/instruction; 2 ask a short question; 3 rephrase; 4 provide scaffold/choice; 5 model the first step only, then return the task. I Do: point to pay and learning icons. We Do: prompt the matching label. You Do: log help and supplied details without silently completing the fact card.

Private help route

Use a trusted adult or the school's help route. Point to HELP, write a request or ask for a private talk. Pass, pause and supported return are available. If one adult is busy, seek another through the route. No personal grades, family jobs or finances requested.

Evidence and staff guidance

Typed and scribed routes

Either profile can use Evidence Sheet page 2, Type instead, with blank fields. Save through the usual routine with lesson code and work reference; show an adult privately. Exact scribe records words/selections, reads back and allows correction. Separate usual access from supplied answers.

Evidence and judgement

Exact source evidence: Apprenticeship fact card. Keep chosen profile and sector, pay, training, employer, entry need, earn-and-learn explanation, one application need, first response, actual access, answer prompts, one NS and reply. Secure explanation includes both paid work and training. Secure application-need evidence identifies an Entry need or To apply detail from the selected card. Do not substitute a pay amount or job title for a requirement. Mark the two checks separately and retain partial evidence. A pass is unobserved.

Misconceptions and feedback

An apprenticeship is not paid work without training or a course with no paid job. An employer provides the job; a trainer helps learning. They are different roles and may work together. A practice card’s entry skill is not a rule for every apprenticeship. Applying is asking to be considered, not a promise of a place.

One NS may be add training to the explanation or use the Entry need field. VF verbal feedback; WS worked with support; I independent; // self-edit; ? read back; E actual banked evidence. R follows Voice, Audience, NS and a reply in the same colour, on the same page or usual mode. Offer to the Communication portfolio. Staff confirm any accredited mapping.

Invented profiles and boundaries

All people, roles, employers and profile details are invented. Employer types only: small bike repair workshop, wood workshop and bakery. Pictures are generic symbols, not real people or places. No named provider, scheme, website or product. No pay rates, entry grades, age rules or actual openings stated. Staff check current requirements and support through the usual advice route before any real application. Listen calmly to concerns, avoid probing or secrecy promises and follow usual procedures.

Source and sequence

H18 profile/vacancy task uses prepared invented profiles; no live research. Its labels, myth/fact check and link to a chosen sector are retained. K18 website suggestions become in-pack cards. Next BUILD Careers Weeks 4–6, one per return; then the previously queued LAUNCH Careers Week 1. GROW Careers remains paused. Only this Week 3 authored; pause for Downloaded.
