Staff answers and teaching notes

Exact lesson outcome

I can explain that an apprenticeship combines paid work with training and identify one thing I would need to apply.

Core explanation

An apprenticeship combines paid work with training. Accept equivalent wording or aided selections that communicate both parts. Paid work alone or training alone is incomplete. No pay rates, age rules, entry grades or actual vacancies are asserted. All three profiles are invented classroom examples.

Model A

Sector bike repair. Pay: paid to help check and mend bikes. Training: planned lessons and practice with a trainer. Employer: small bike repair workshop. Entry need: read a short safety note. To apply: complete a short form about a skill to learn. One valid need is reading the safety note; completing that form also meets the application-need check. Keep source field visible.

Model check and hinge

Model check A: paid work and training. Main hinge B: paid work and training. Parallel A: paid job with planned lessons. If unclear, point to Pay and Training together, model again and recheck privately. Keep normal aids and word bank; fade only answer cues. A pass is unobserved.

Myth and fact answers

1 Fact: paid work plus training. 2 Myth: training is part of an apprenticeship. 3 Myth: A asks for reading a safety note; B measuring; C following steps. Use the card details as evidence. Do not turn these made-up entry skills into universal rules.

Employer and trainer

The employer gives the job; the trainer supports learning. These are roles, not named organisations, and may work together. Learners should not use the job title as the employer answer.

Choice answers and feedback

B Woodwork

Sector woodwork. Pay: paid to help measure and smooth wood. Training: planned lessons and practice with a trainer. Employer: a small wood workshop. Entry need: measure a short length with a ruler. To apply: give an example of following an instruction. Valid need: measuring with a ruler or preparing the requested example. The fact card explains paid work plus training.

C Food making

Sector food making. Pay: paid to help weigh and mix food. Training: planned lessons and practice in a training kitchen. Employer: a small bakery. Entry need: follow a short list of steps. To apply: complete a short form about a skill to practise. Valid need: following the steps or completing the requested form. The fact card explains paid work plus training.

Two choices with one standard

B and C meet the same success checks. Choosing a sector is a lesson choice, not a personal destination commitment. Offer a neutral choice for an invented person if preferred. Use two labels at a time: Pay/Training for paid work; Employer/Entry need for the business or skill. Record supplied details. Accept learner wording that preserves meaning.

Application need

Accept a detail from Entry need or To apply, with its source. Do not accept only a pay amount, employer type or role title as the required application need. Reading support, an aid or exact scribe are valid access; they are not evidence that the entry skill has been assessed in practice.

Review and next step

Useful NS: add training to the explanation; find the Entry need field; or say where the need came from. Retain the first answer and reply. Judge the two outcome parts separately. No inference about real eligibility or future job success.

Evidence and safe delivery

Assessment record

Exact evidence: Apprenticeship fact card. Retain chosen profile and sector, four labelled facts, earn-and-learn explanation, one application need and source, actual access, answer prompts, first response, NS and reply. Secure explanation includes paid work plus training; secure application need comes from the selected card. Record partial evidence honestly. A no-response or pass is unobserved.

Typed and scribed route

Evidence Sheet page 2 has blank fields for either profile. Save with the usual routine, lesson code and work reference; show privately. Scribe exact words or selections, read back and allow correction. Book or usual aid is valid. No online form is sent and no application is made.

Feedback and portfolio

E means actual evidence banked; R follows Voice, Audience, one NS and the learner’s reply. Add to Careers Portfolio; offer to Communication portfolio. Staff confirm any accredited mapping from actual work.

Private help and boundaries

Trusted adult or the school’s help route. Point to HELP, write or ask for a private talk. Pass, supported pause/return and usual aids remain available. No real grades, personal job history or family finances requested. Listen calmly, avoid probing and secrecy promises and follow normal procedures. Keep concerns outside public evidence.

Source and limits

BUILD Careers physical row 18 / Spring 1 row 3. Tuesday 19 January 2027 P3, up to five learners, 40 minutes in 5/8/10/12/5 phases. Generic invented profiles replace live vacancies and websites. Only employer types are used. Entry and application details are practice information, not real requirements. Staff check current information through the usual advice route before real applications. No practical trade activity is taught.

Queue

Next BUILD Careers Weeks 4–6, one per return; then previously queued LAUNCH Careers Week 1. No further GROW Careers until asked. Only Week 3 authored; pause for Downloaded.
