Staff answers and checks

Week 7 Lesson 2 • Part D • 14–18 December 2026

Arrival

D page 1 or an actual learner-authored choice record.

Own enjoyment and reason. Read back any scribed words.

Own learnt skill or achievement, not a prescribed success statement.

A real piece, page, cue card or the pupil's own recording. Do not require public performance.

Starter

B could support the actual share only if those details describe a real event. A is rehearsal. A label or tick alone is not evidence; check that enjoyment and achievement were actually communicated and received.

Guided practice

The listener's question prompts a clearer point to the tab. The model index points to an actual opened page. Five main PDFs plus two separate clips total seven files. Do not count five files as proof all four parts are met.

Exit

A real listener response recorded at D page 2, in words, signs or confirmed choices.

A specific change or a reasoned decision to retain an already clear feature, followed by another try.

An actual file count no greater than ten for the submitted portfolio, verified locators and named gaps/actions. D page 3 remains pending unless the actual event has occurred.

Acceptable responses

The learner's own account may differ from the class model. Check both enjoyment and achievement. Accept pointing, speech, signs, drawing or checked scribing. Do not award a part result from route choice or attendance.
