RE learns about caring; this activity is not worship

Teacher and cover plan

1. Lesson outcome. BUILD-RE-S1-W01; Caring for others. Outcome: Listen to a story about caring for others. To be able to… find care in a story. Success today: I can… show one caring act and say how it helps.
2. Arrival 1–4. 5 min · KEEP. Use one tier: three prior checks and the link. Keep four first responses; recap only after first try. TA: Help locate the first question and begin within about two minutes. Avoid: Do not answer the four questions or open recall resources before first try. VF: “You made a first try. Show me what you want to check.”
3. Starter. 3 min. Which person in the first picture might need help? In your book: Give one short reply or mark. You may pass. TA: Read the one question and allow quiet/private think time. Avoid: Do not add a second question or require public speech. VF: “You chose one detail. I heard your choice.”
4. I Do. 6 min · KEEP. Use the complete I Do method model and its named source. Record one useful model step or word; no board copying. Hide the model before the own task. TA: Support attention to one current model step and useful words. Avoid: Do not give a parallel explanation or ask for slide copying. VF: “This step uses a case detail. You can point to it.”
5. We Do. 8 min · KEEP. Use the We Do source and prompt. Keep one guided example and the pupil’s own contribution before revealing the shared check. TA: Invite a volunteered or private contribution and record the pupil’s own choice before reveal. Avoid: Do not reveal a full answer before the pupil’s try. VF: “Your choice uses this detail. Check this one part.”
6. You Do. 15 min · KEEP. Use the chosen source-based route. Keep the pupil’s response and review within the allocated You Do time; exact route and answer guidance are in Staff_Answers.pdf. TA: Offer independence first; use the held ladder only if needed and fade. Avoid: Do not replace the pupil’s idea or mark prompted work independent. VF: “You used this detail. Try one change, or tell me why it should stay.”
7. Support routes. Independent first; Supported then Choice as needed; Aspire is separate. Staff record actual I/S/C and exact prompts; leave the pupil’s box empty.
8. Adaptations / normal ways of working. One-step instructions, visual/symbol support, model first, reduced writing with talk/point/draw/type options, pre-taught vocabulary, reader/scribe/overlay/extra processing time; Space, private response, optional reflection and pass. Read the short story in three pauses; use role cards and complete picture descriptions; no injury imagery or medical role-play. Planned regulation/movement break; return to the first unfinished source step. No cold calling; nobody is asked to read difficult text aloud.
9. TA focus. Designated evidence adult: teaching adult. Record actual source access and prompting; never improve the baseline or mark prompted work independent. Held prompt ladder: page 2.
10. Exit 1–3. 3 min · KEEP. Use one tier and the whole fresh source: both unaltered checks, confidence 1–3 and separate adult prompt record. No other help; use responses for the next lesson. TA: Offer complete fresh-source access and record an attempt or pass, plus actual prompting. Avoid: Never give a content clue or change an answer; close reference/help panels. VF: “Thank you for your own response. It helps us plan.”
11. After teaching. Misconception: _____ Response: _____
Next step: _____ Evaluation: _____
12. Preparation / evidence / cover essentials. PPT; all source strips, three word/symbol cards, four route pages, blank record, Pause card, book and drawing tools; visual/symbol cards; mini-whiteboard. RE learns about caring, not worship. Offer the neutral story; no personal disclosure, sacred originals, flame or injury enactment. Main and neutral sources remain unmodelled; model and class cases are separate. Answers: Staff_Answers.pdf. Teaching adult captures the whole pupil-owned response with exact support, receives and names it back, then chooses the next teaching step. Check and upload selected evidence the same day, 14:10–14:30. R requires receipt and influence; record actual influence after teaching. KEEP: main-source access, short model, one guided attempt, genuine own response and both Exit checks. Omit Aspire extra work or repeated examples if needed; never omit the pupil-owned core or supply its answer. Six-stage timeline (minutes): 00–05; 05–08; 08–14; 14–22; 22–37; 37–40.

Key answers and adult prompt ladder

Arrival key answers. Supported: 1. Easier; accept a sensible prior explanation.; 2. Yes.; 3. No.; 4. A story; sensible prior response accepted. Standard: 1. Making a task/need easier; accept sensible prior understanding.; 2. Yes; their choice matters.; 3. Use a made-up example, a supplied case or pass.; 4. An act that helps someone or meets a need; prior idea. Stretch: 1. A relevant prior example; no personal event required.; 2. To find whether/what help is wanted; prior idea accepted.; 3. It avoids telling personal details; prior idea accepted.; 4. Look at its effect/need/details; no new story knowledge required.
Exit Ticket key answers. Supported: 1. Gave it back.; 2. They got their pass back; any accurate linked phrase or directed gesture. Standard: 1. Spotted the pass, checked its owner or returned it; one accurate act.; 2. It enabled the owner to recover their pass; linked response. Stretch: 1. Accurate act grounded in finding/checking/returning the pass.; 2. It meets the owner's need to get their own pass back; source-linked reason.
Answer reference. Staff_Answers.pdf: Arrival and Exit by tier, then guided and route answers. Check the accepted source before accepting equivalent answers.
Prompt ladder for adults. 1. Point to the relevant place / instruction. 2. Ask one short question: "What is it asking you to find?" 3. Rephrase the instruction in simpler language. 4. Provide a scaffold or limited choice. 5. Model the first step only, then return the task to the pupil.
