Stretch practical pack

Design and Technology LAUNCH Spring 1 Week 2 Thursday 14 January 2027 P1 Year A

I can follow my checked plan to prepare a simple dish and show safe working.

Use the actual checked plan. The adult must give GO before ingredients or tools are issued.

1. Complete the core practical and evidence first.
2. Explain how one choice controlled a food-safety risk.
3. Compare your finished dish with the Week 1 plan and justify a real change.
4. Suggest one improvement for the next preparation without claiming a taste you did not try.

Your own record

In your book: dish ___. What I did ___. What the adult did ___. One safety action ___. A real change ___. Food-only plate photo location / pending ___. Storage decision ___.

Access and safety

Rehearse in any language. Point, speak, sign or direct an adult where needed. Tasting is optional. A simulation leaves practical competence pending. The independent stage still uses the agreed adult supervision.
